

SONIC™ FRONTIERS

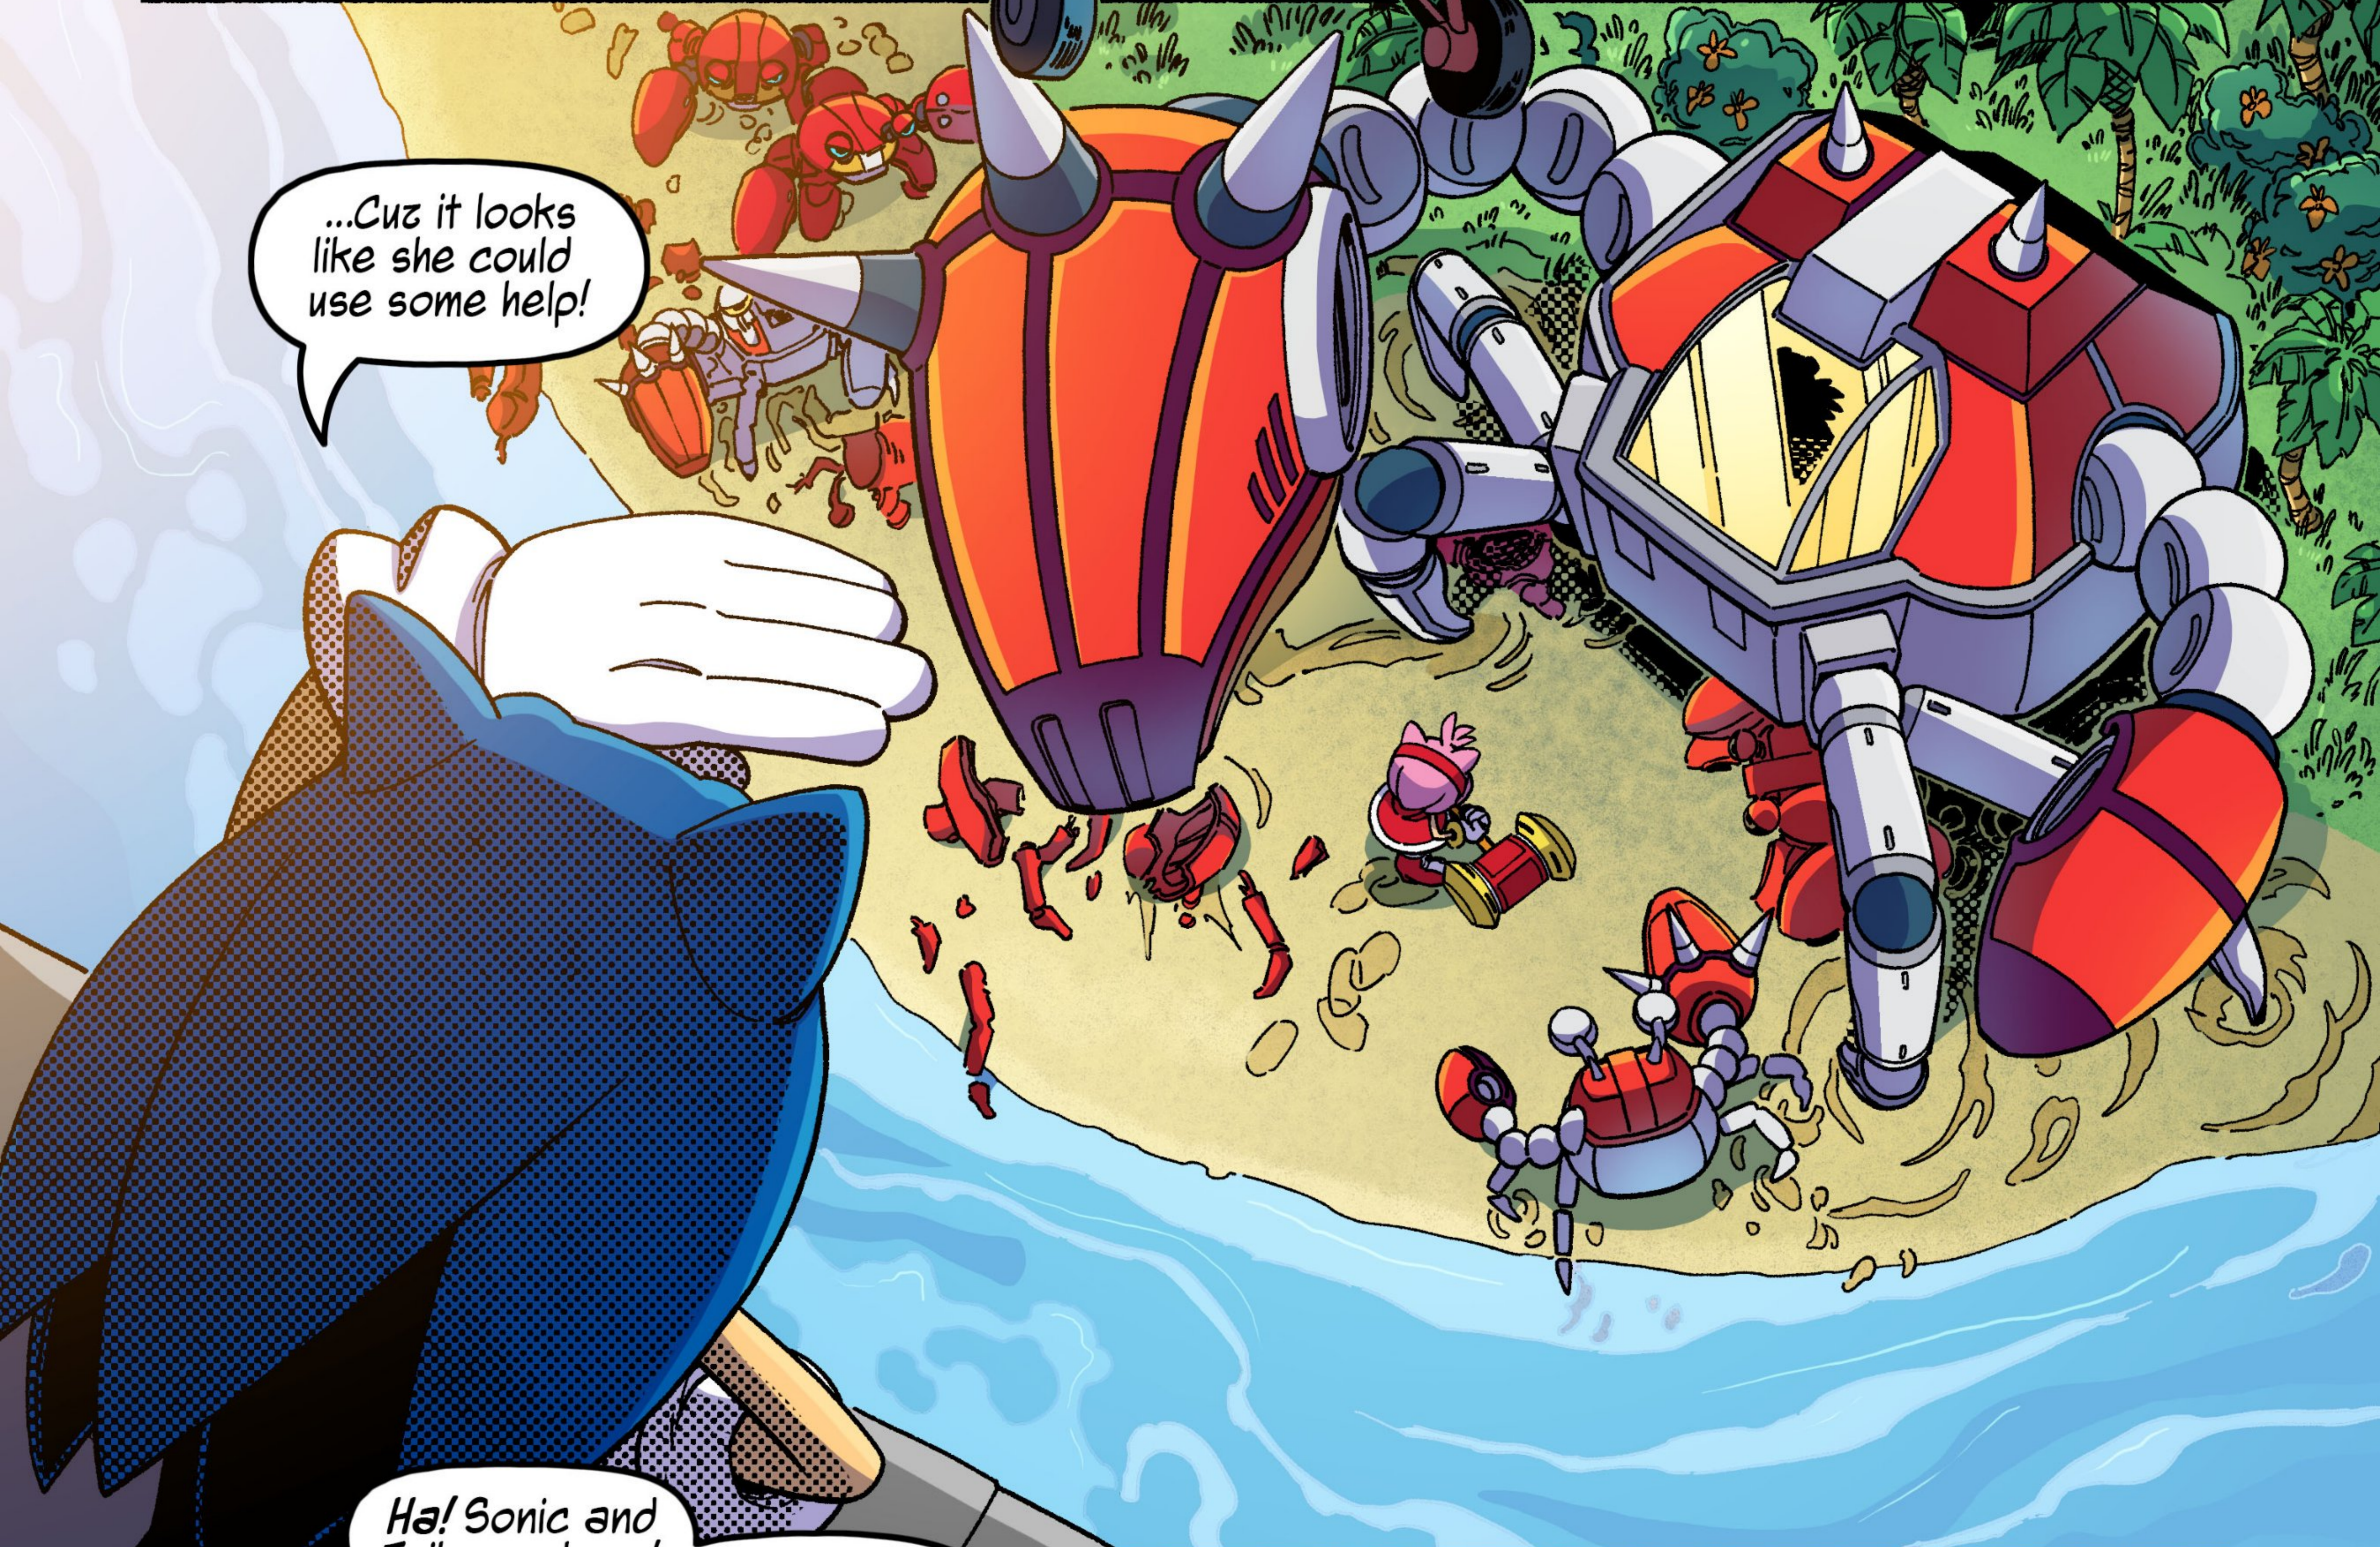

Prologue: CONVERGENCE

Amy said she'd meet us on the island up ahead. E.T.A. Five minutes!

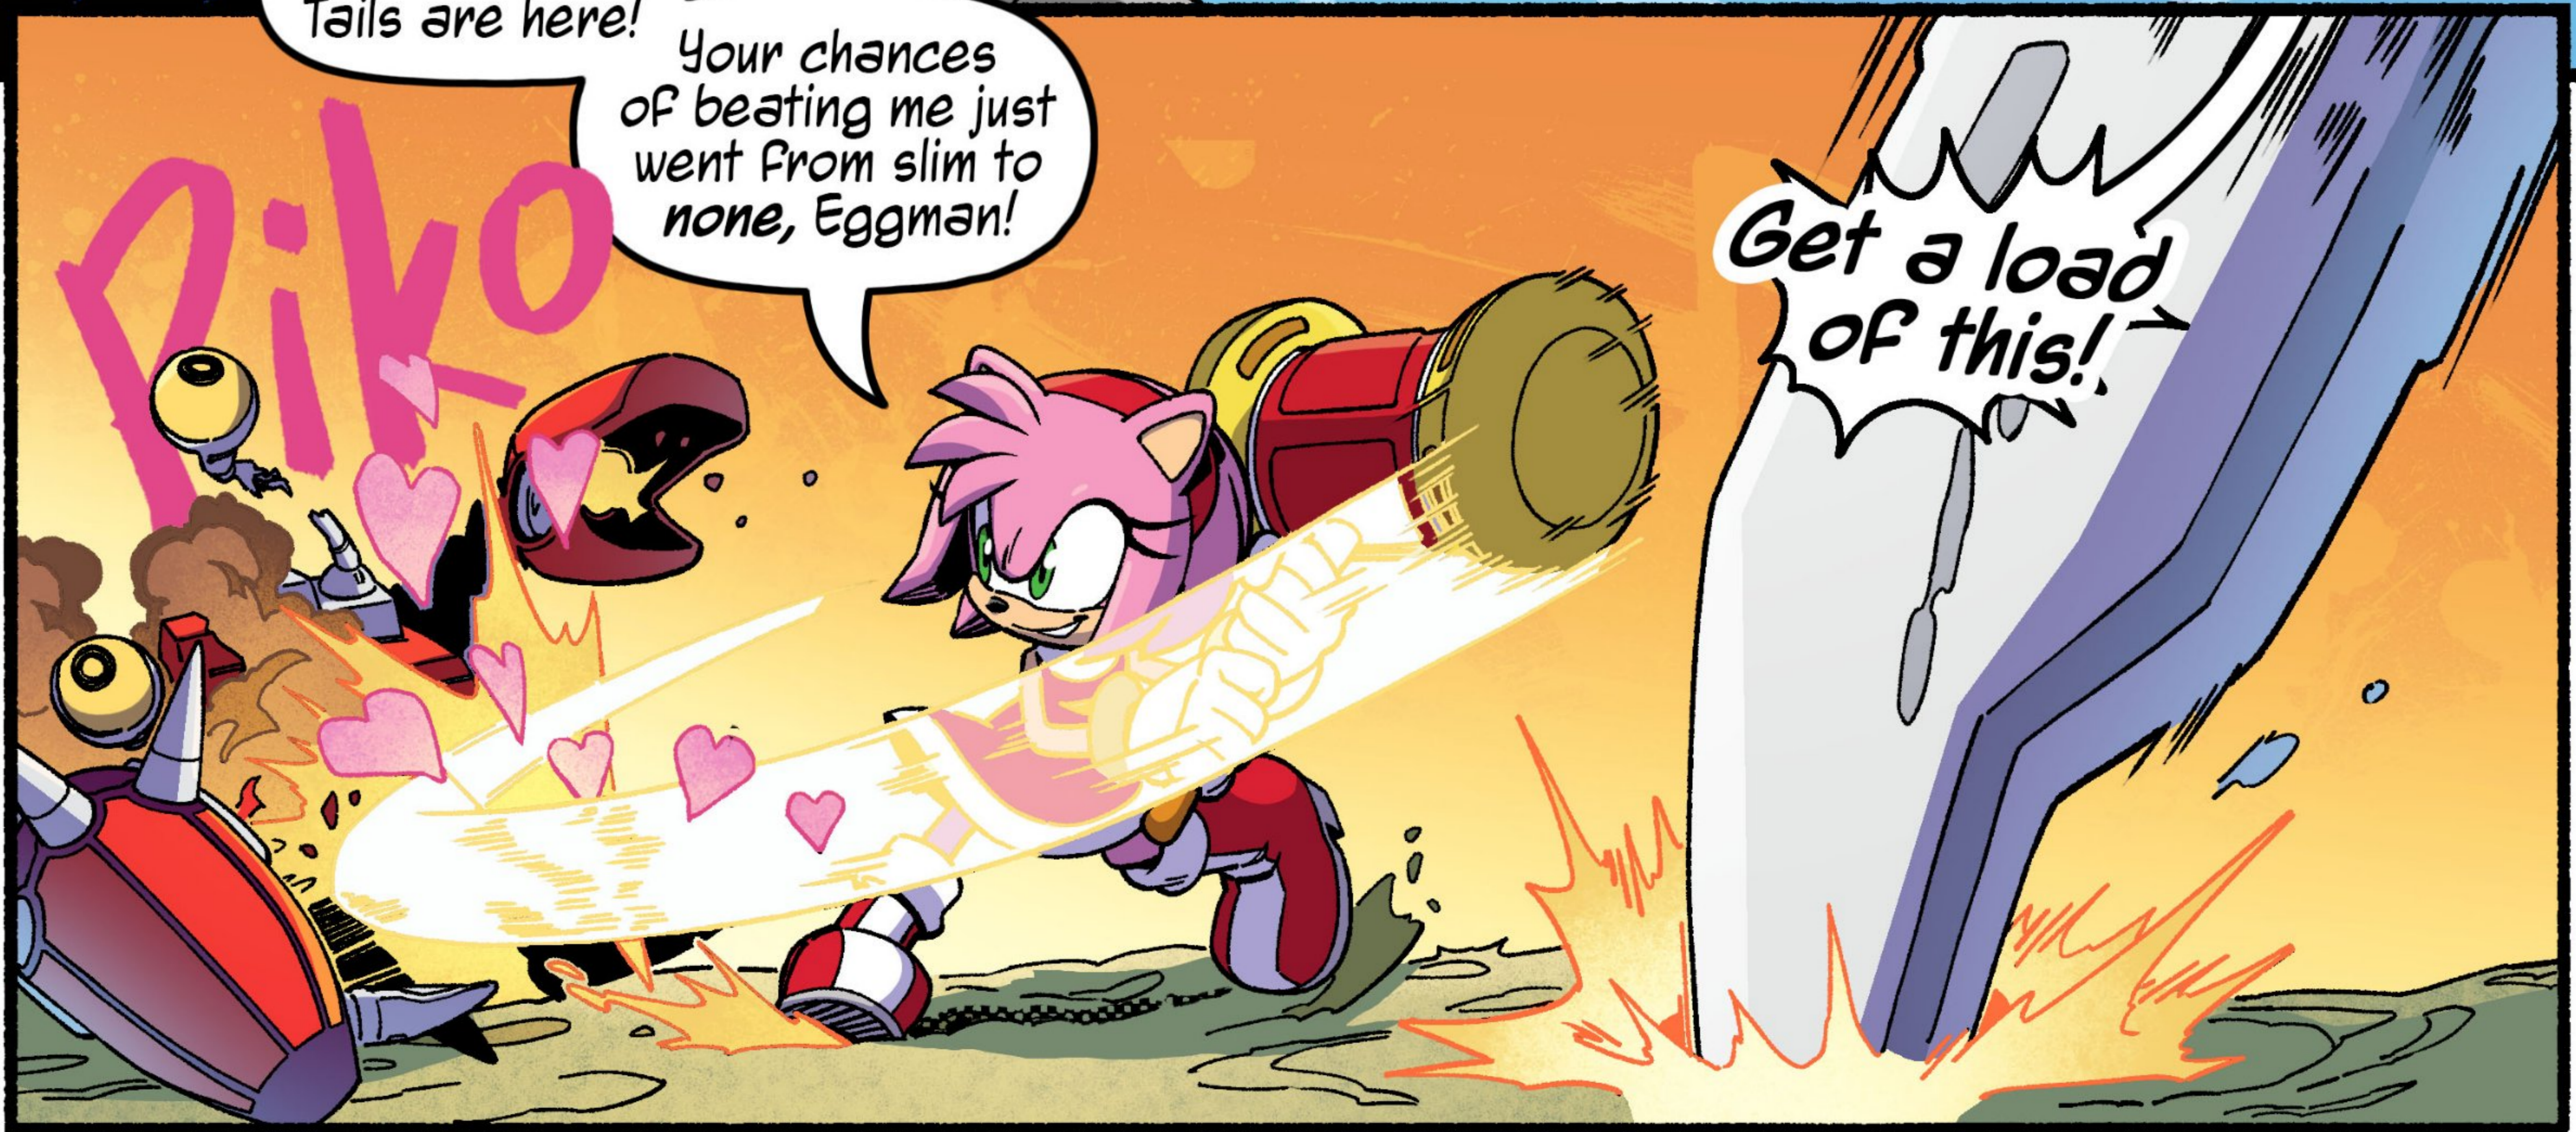

Better make an emergency landing, Tails...

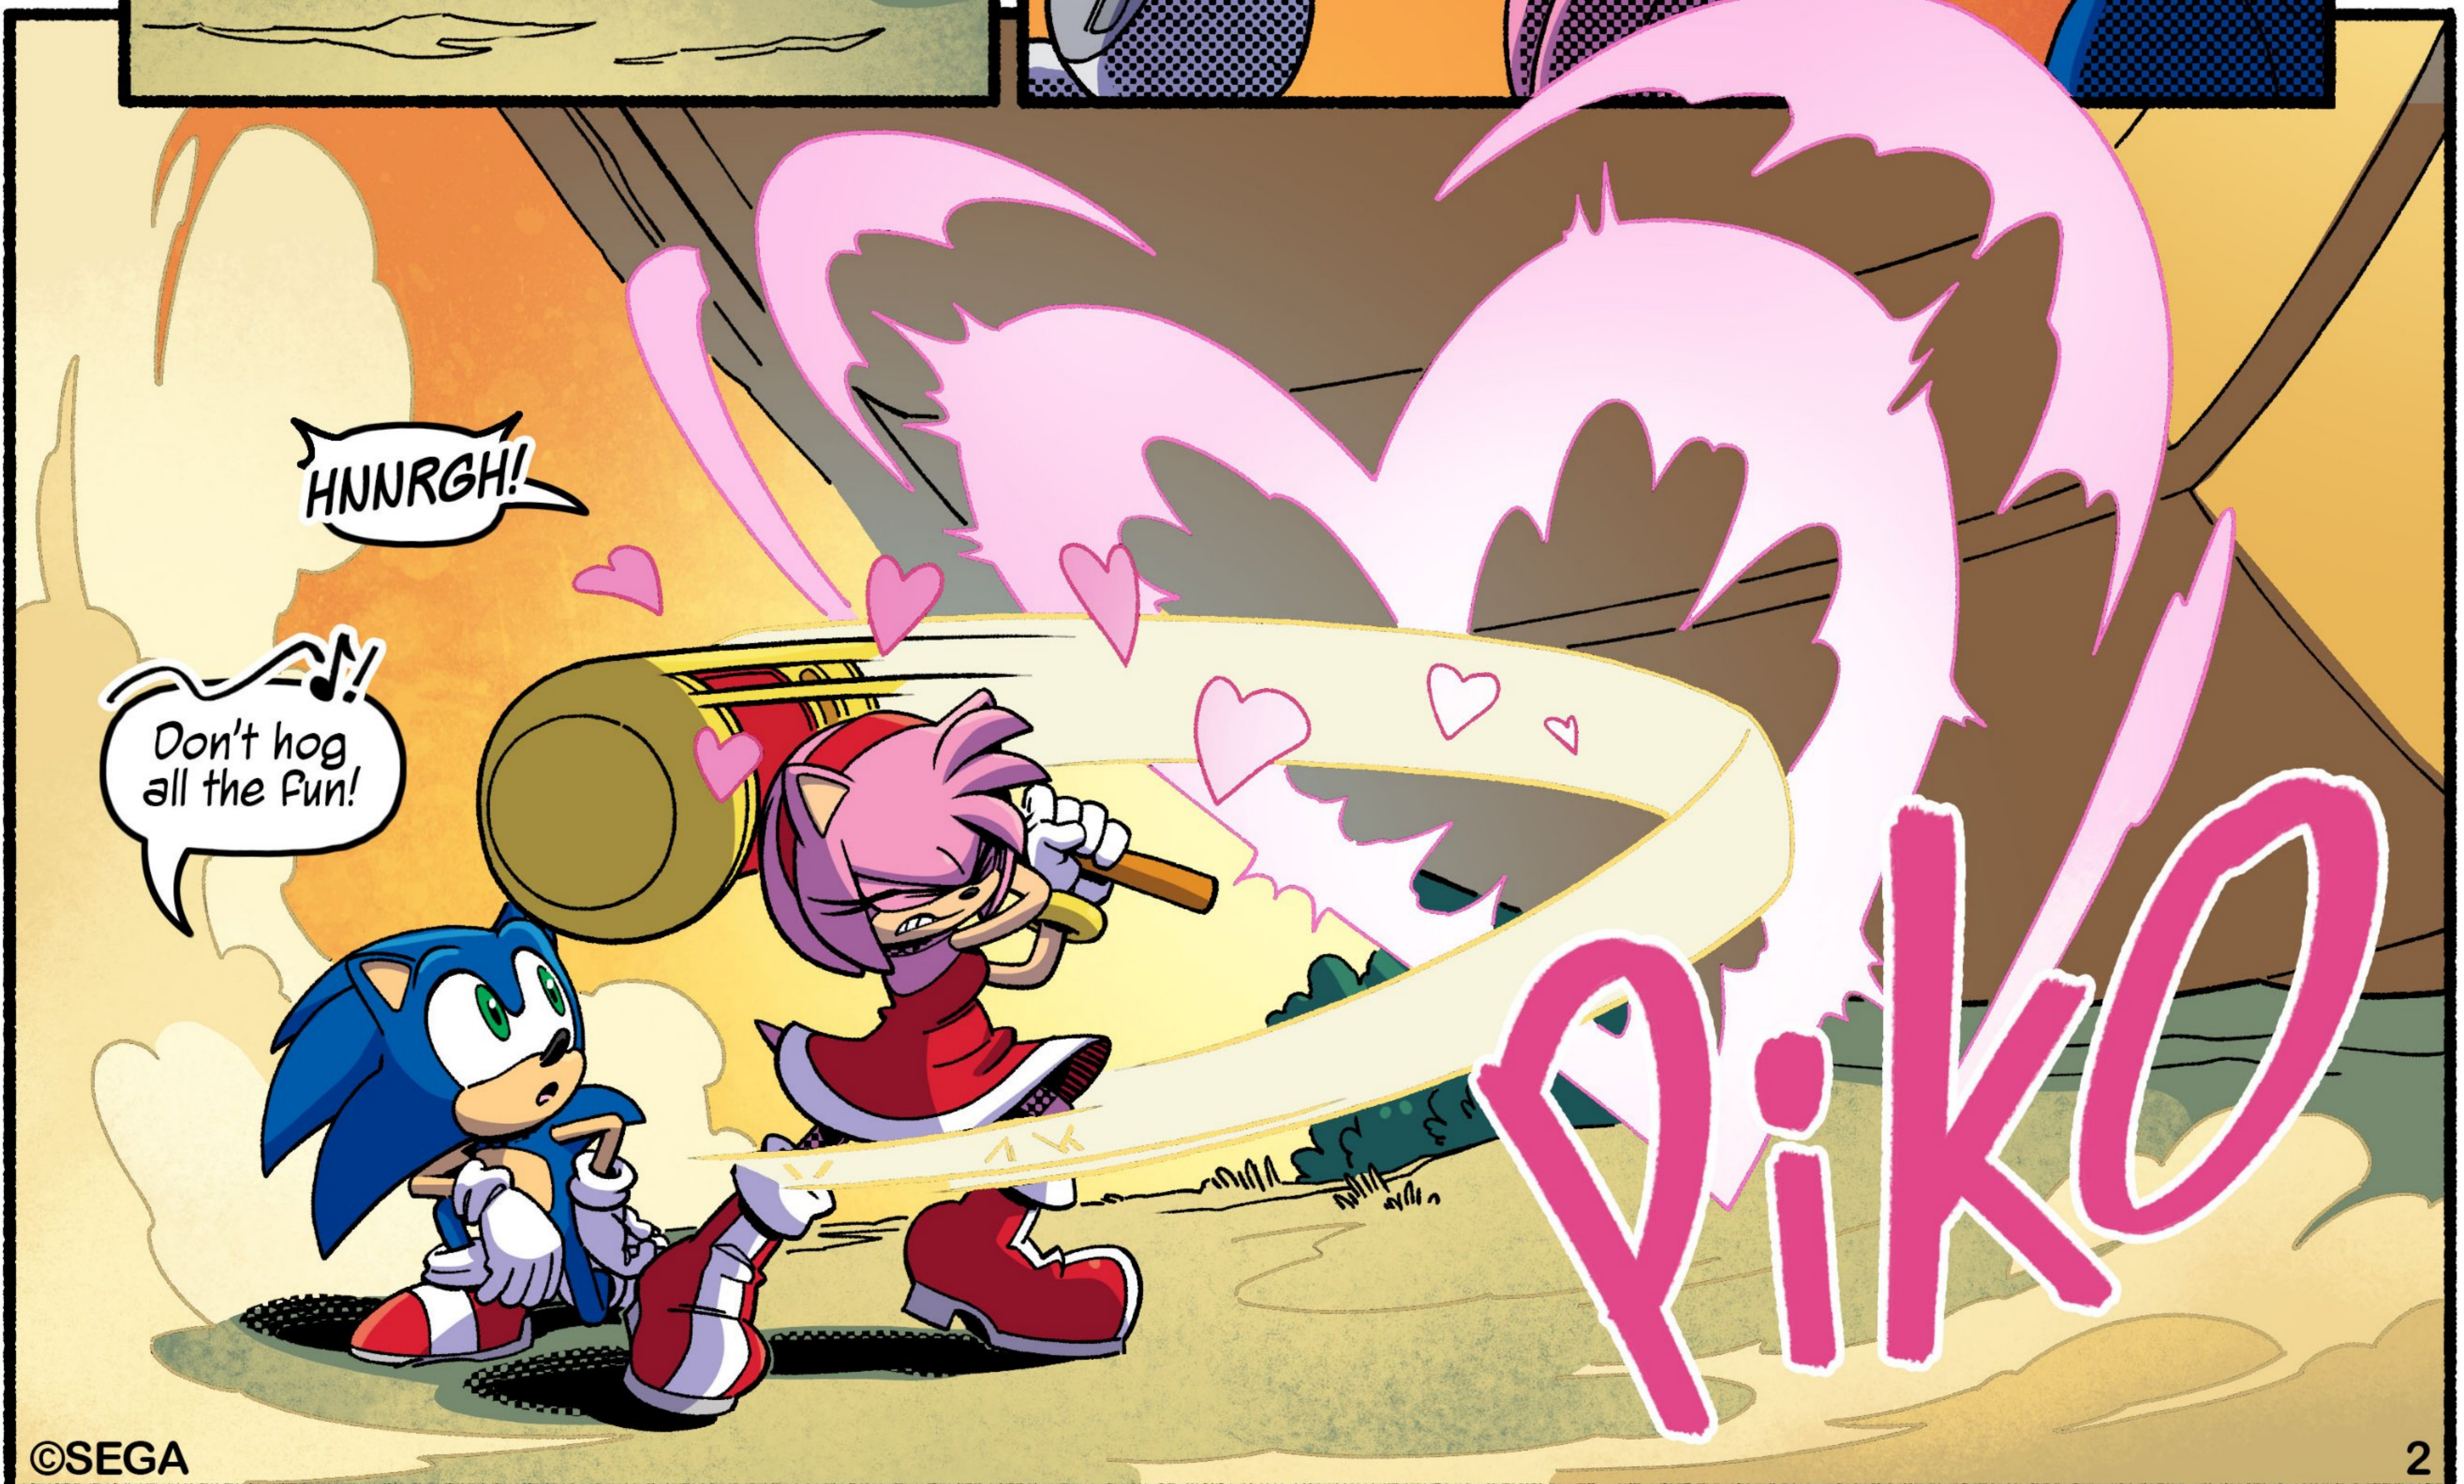

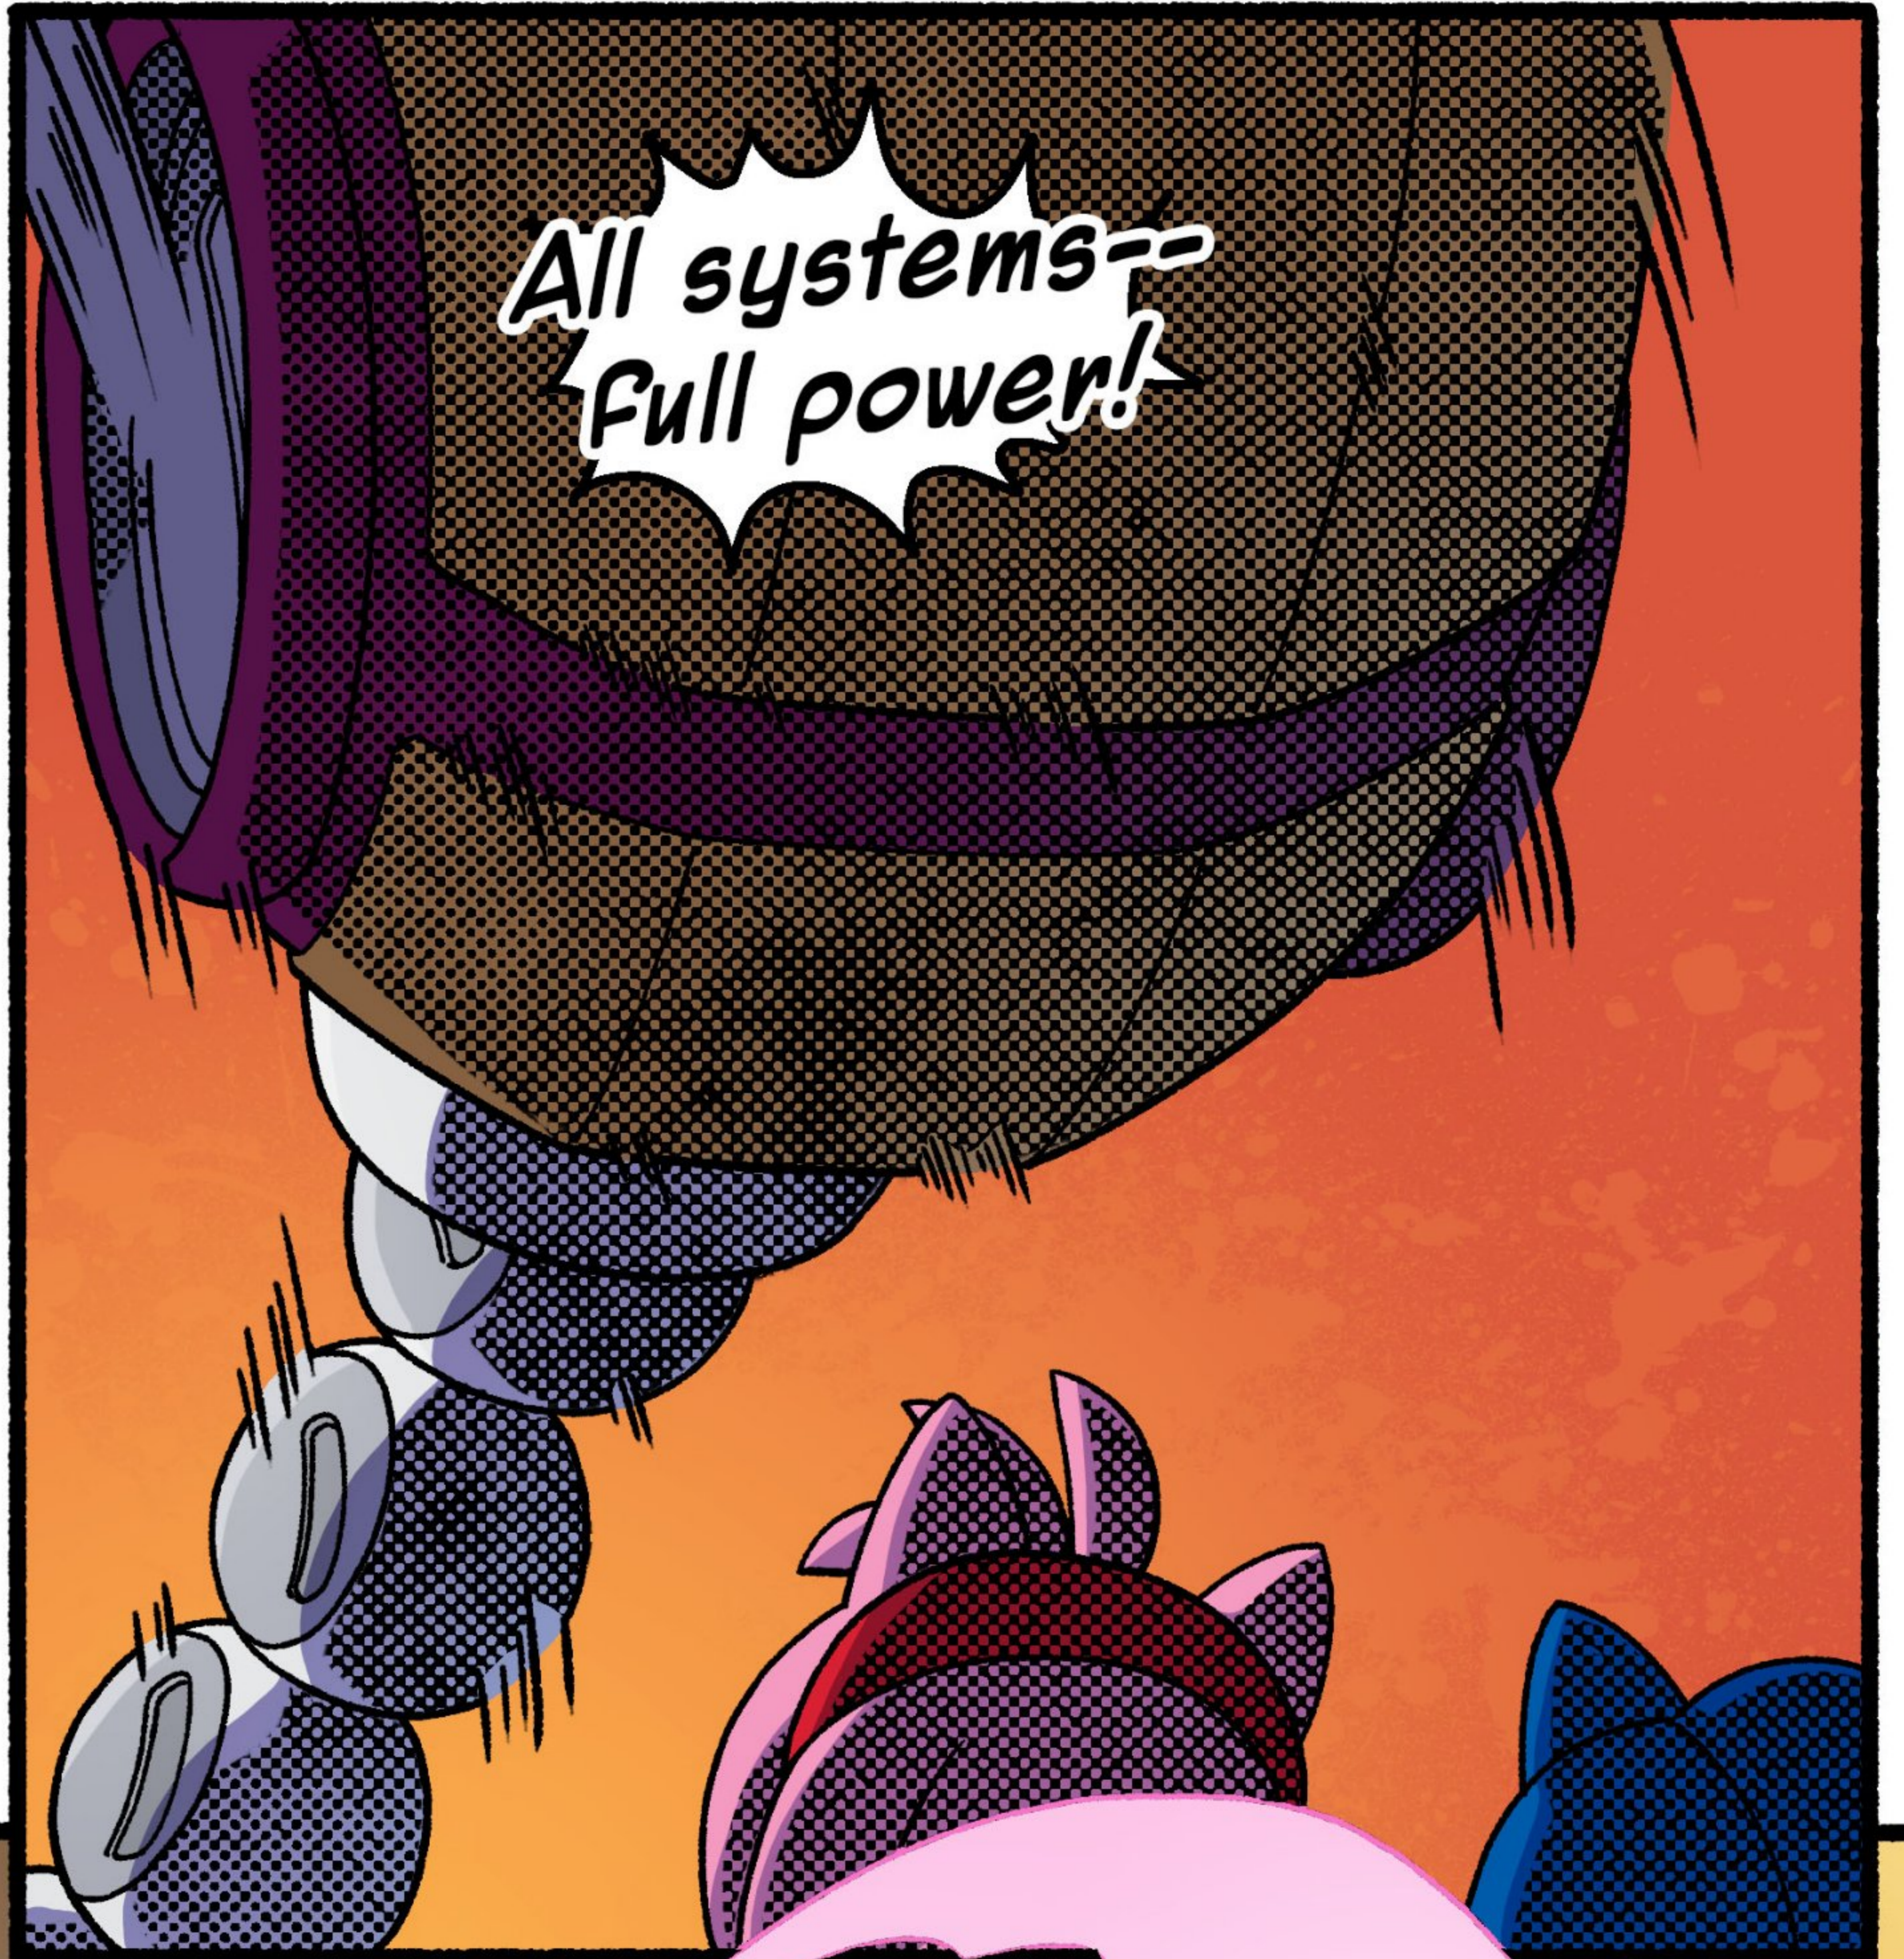

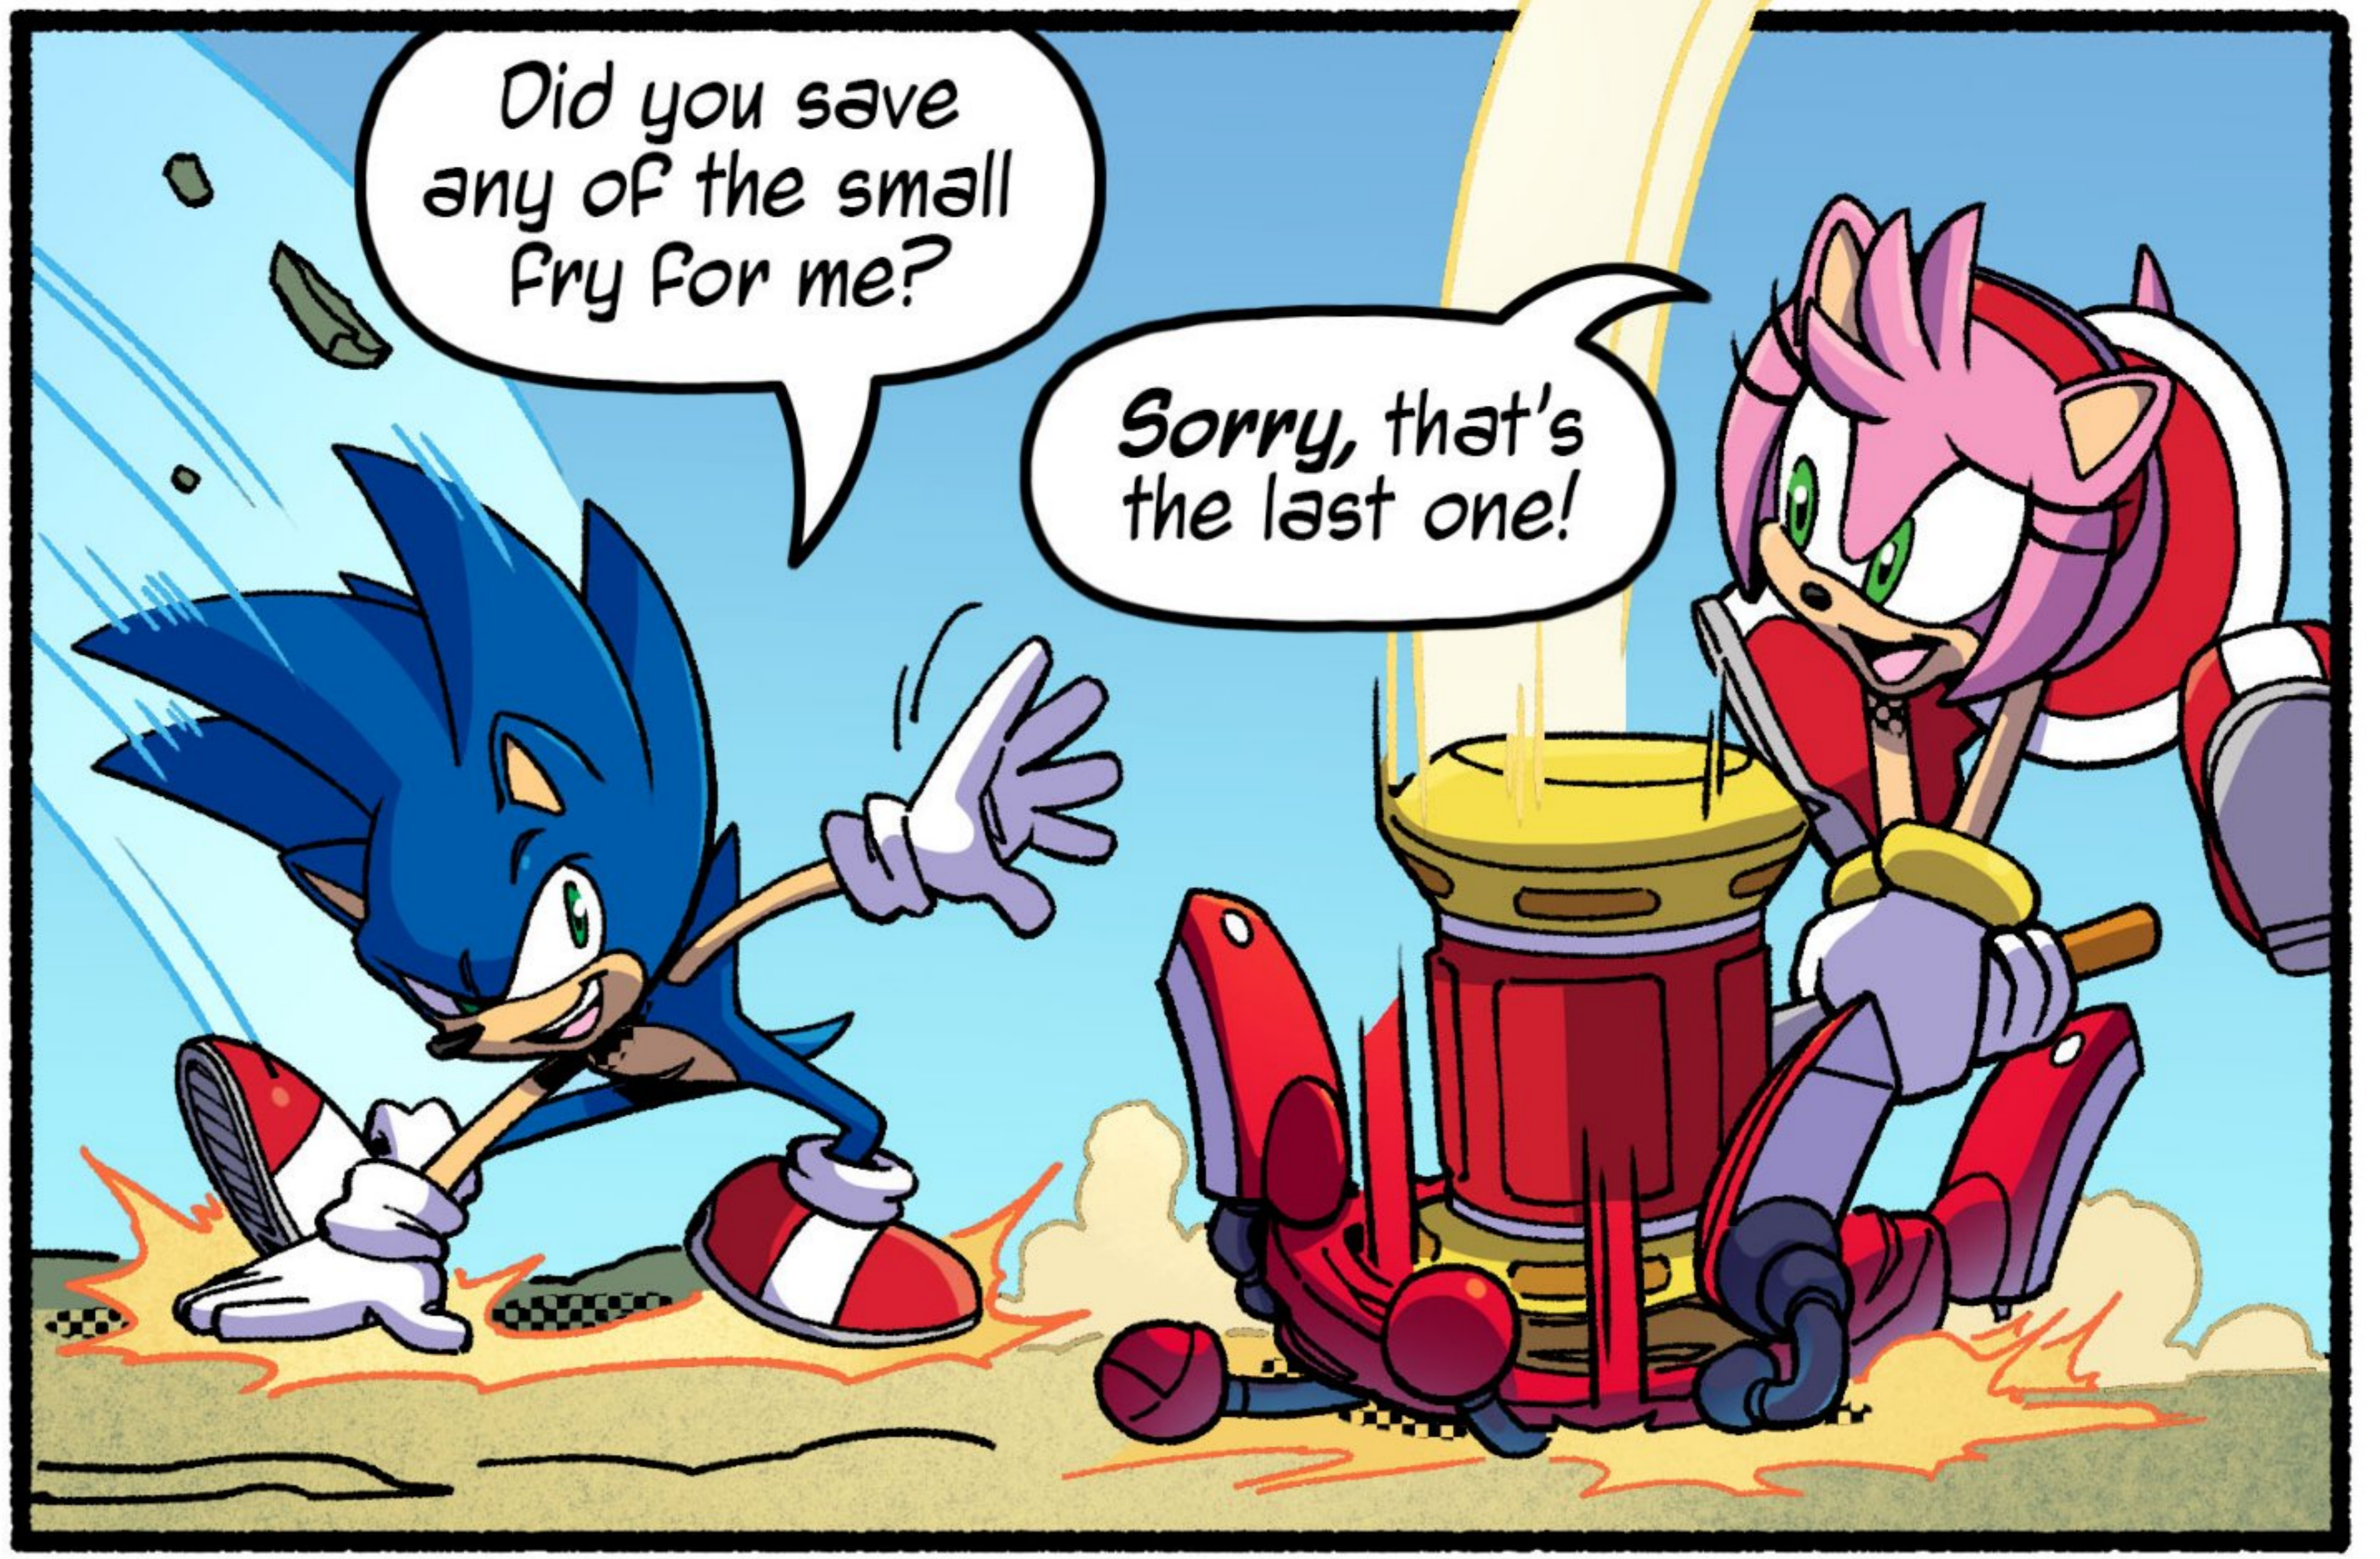

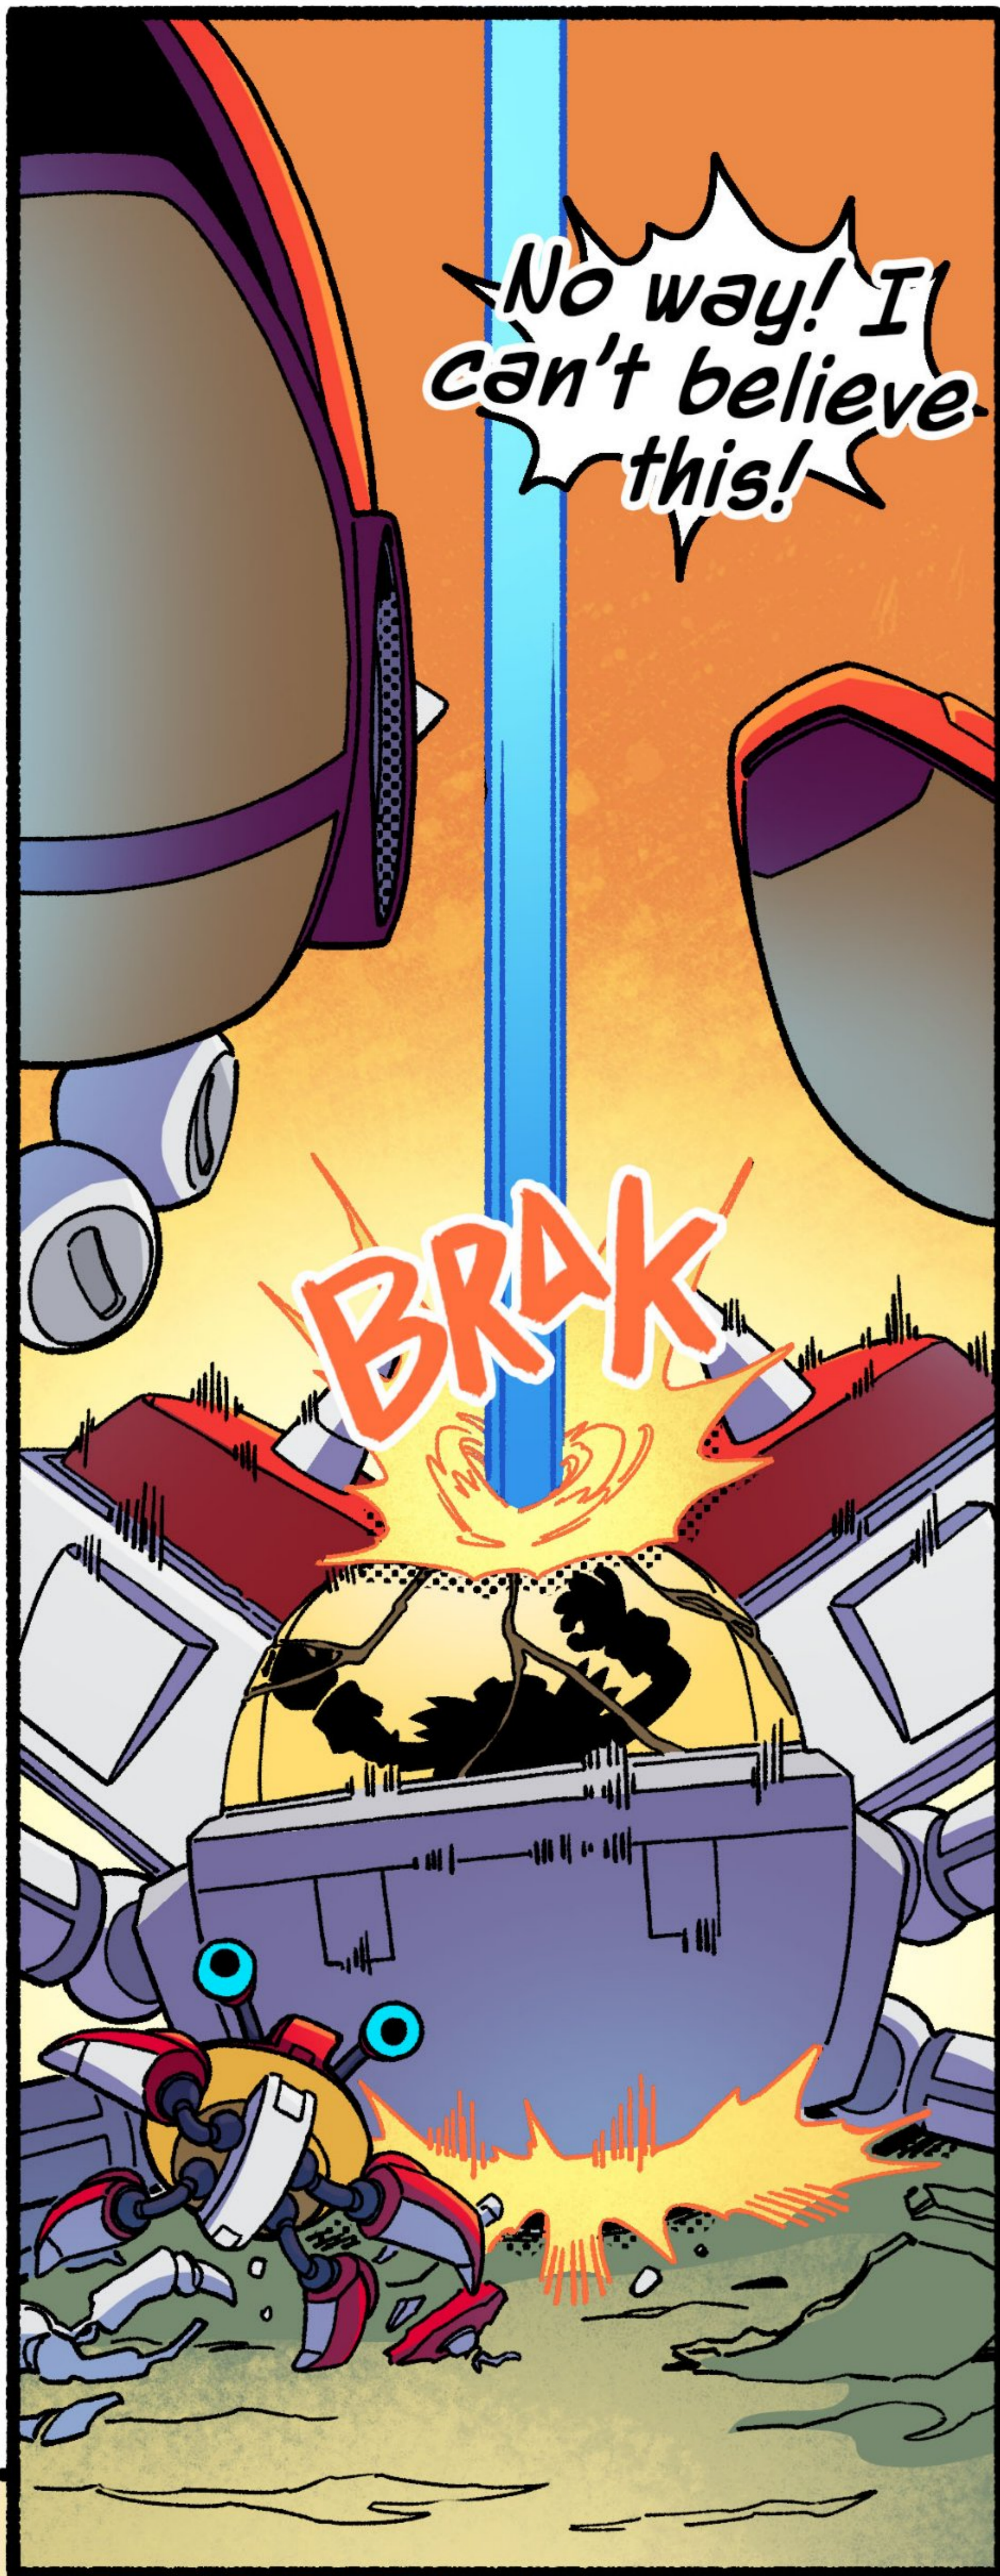

...Cuz it looks like she could use some help!

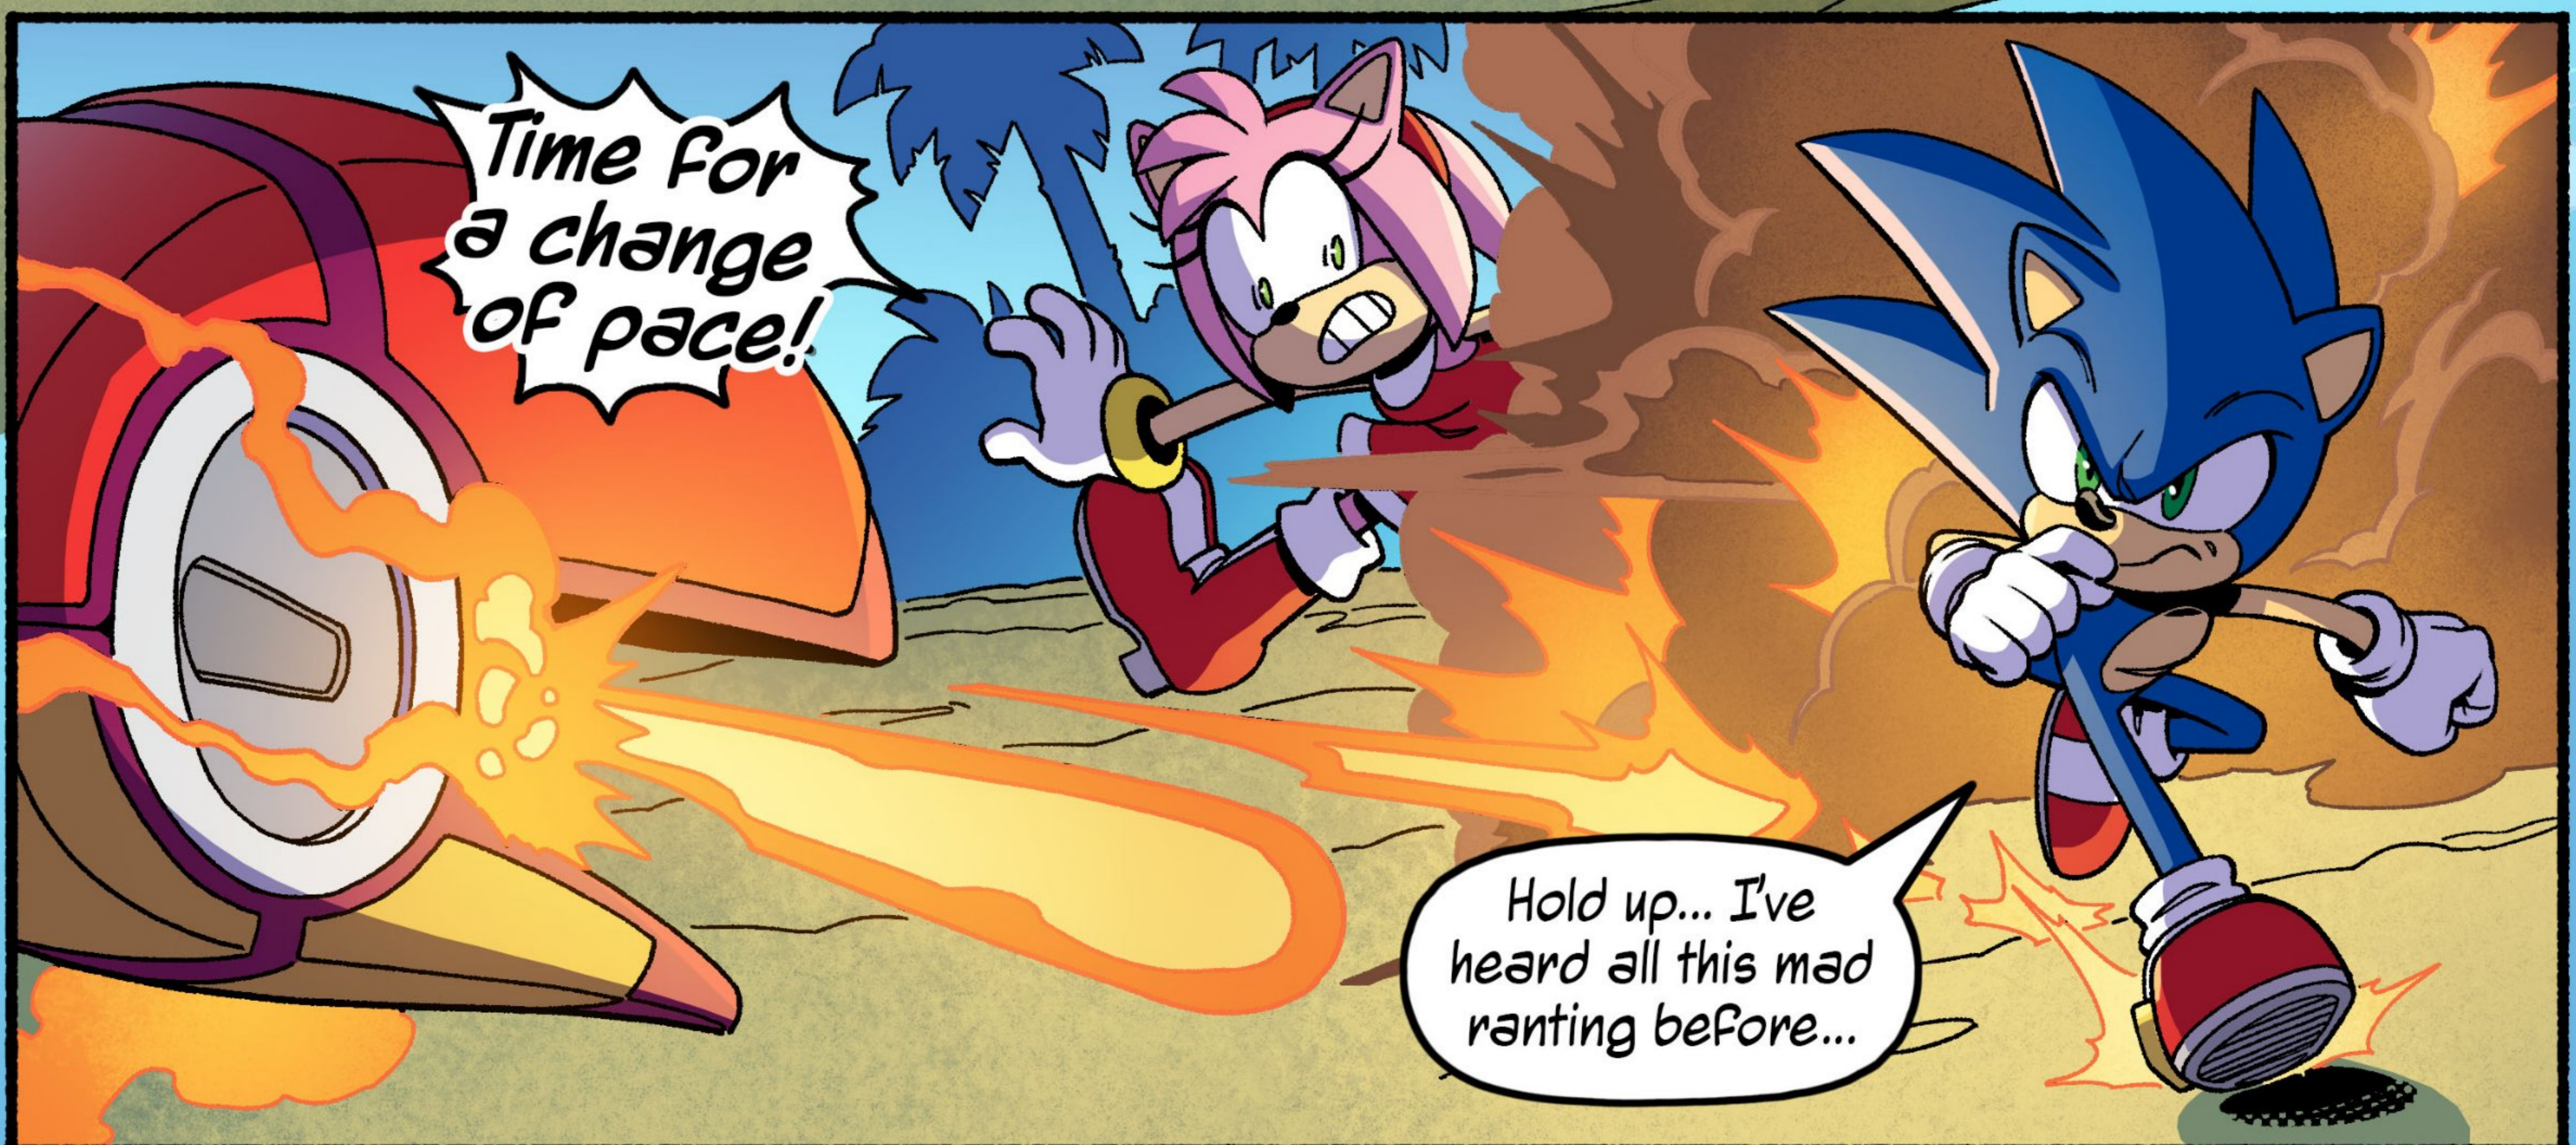

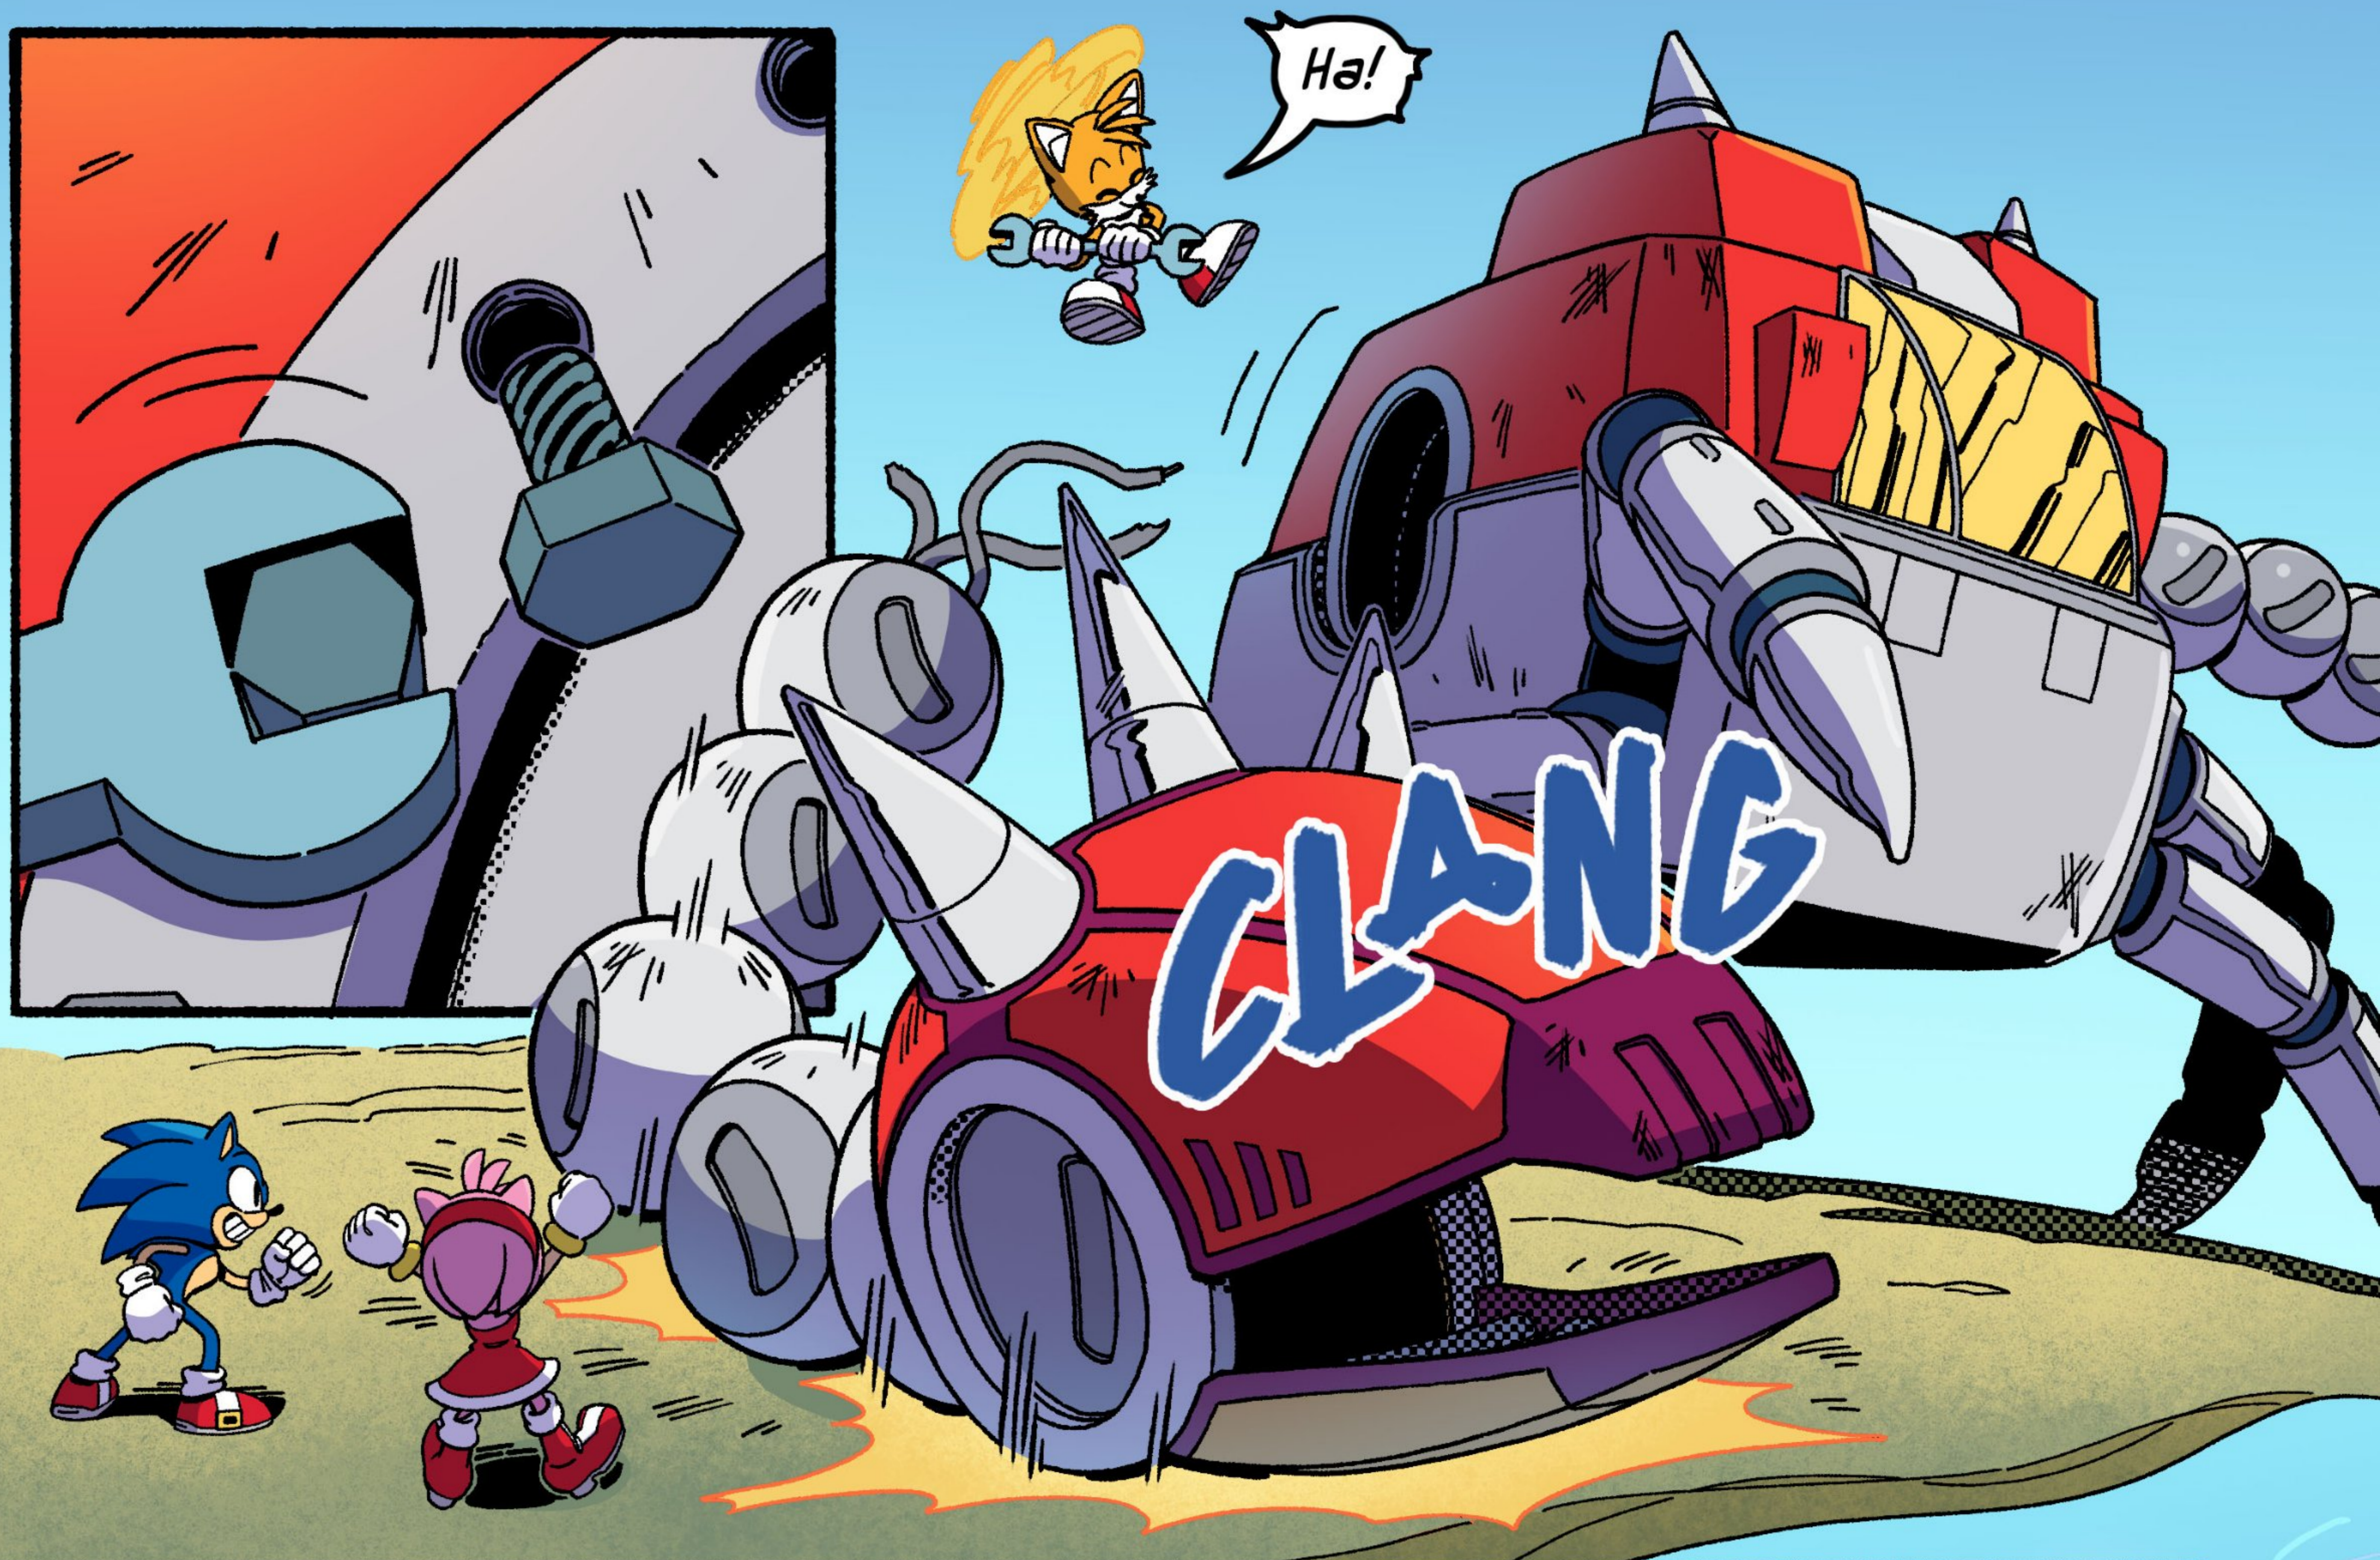

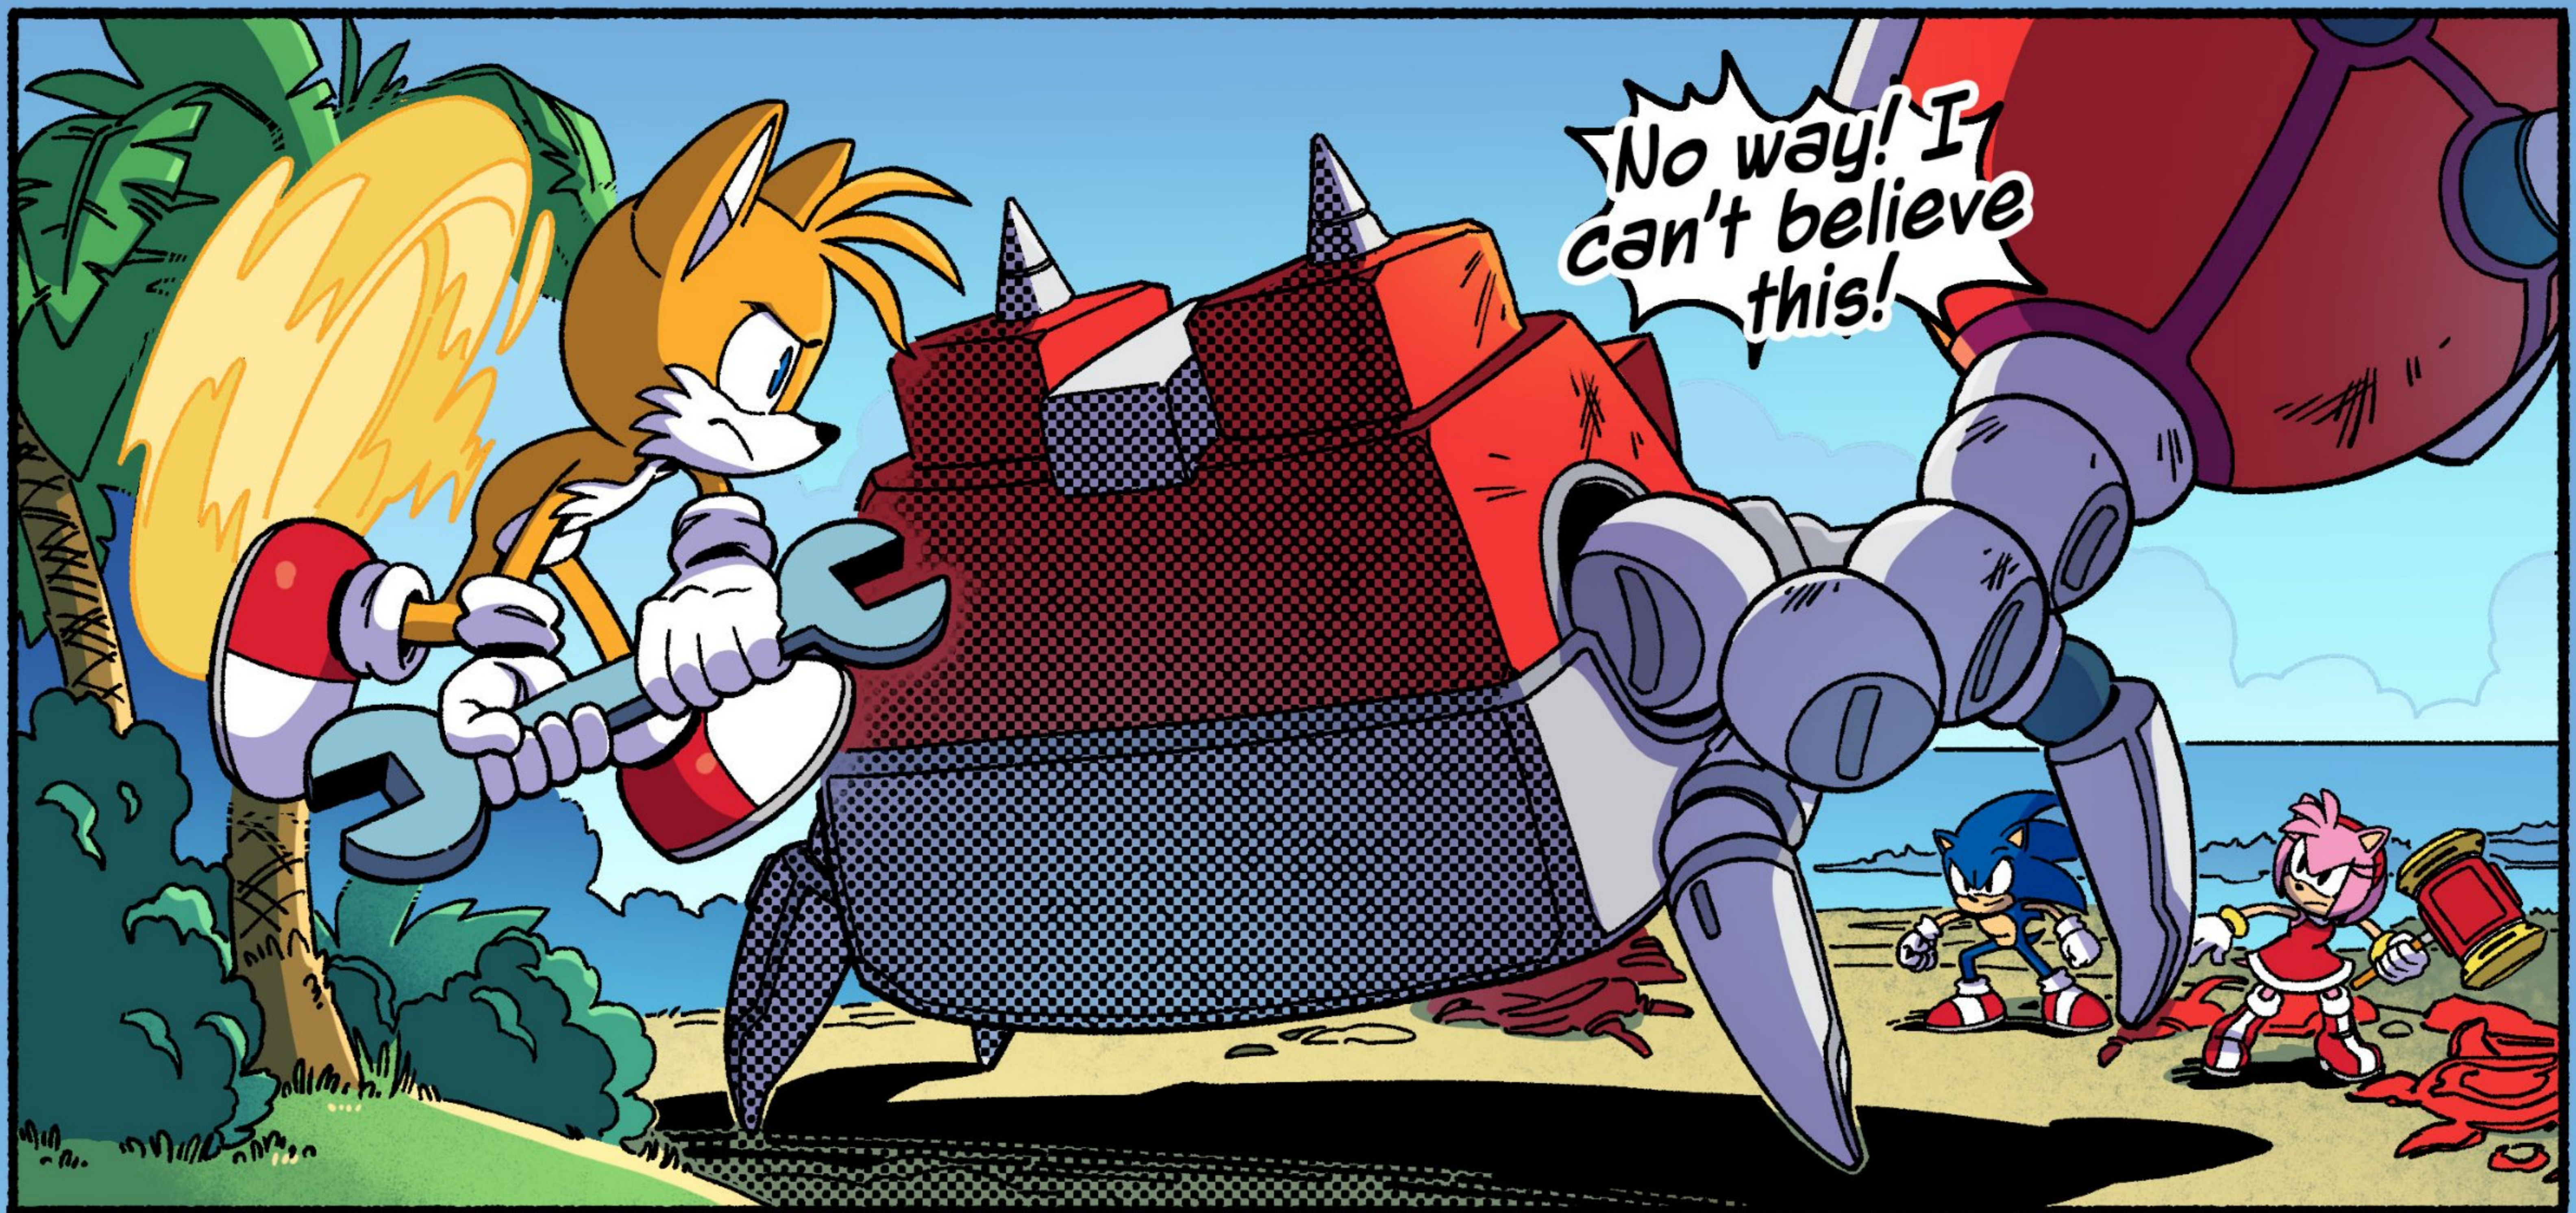

Ha! Sonic and Tails are here!

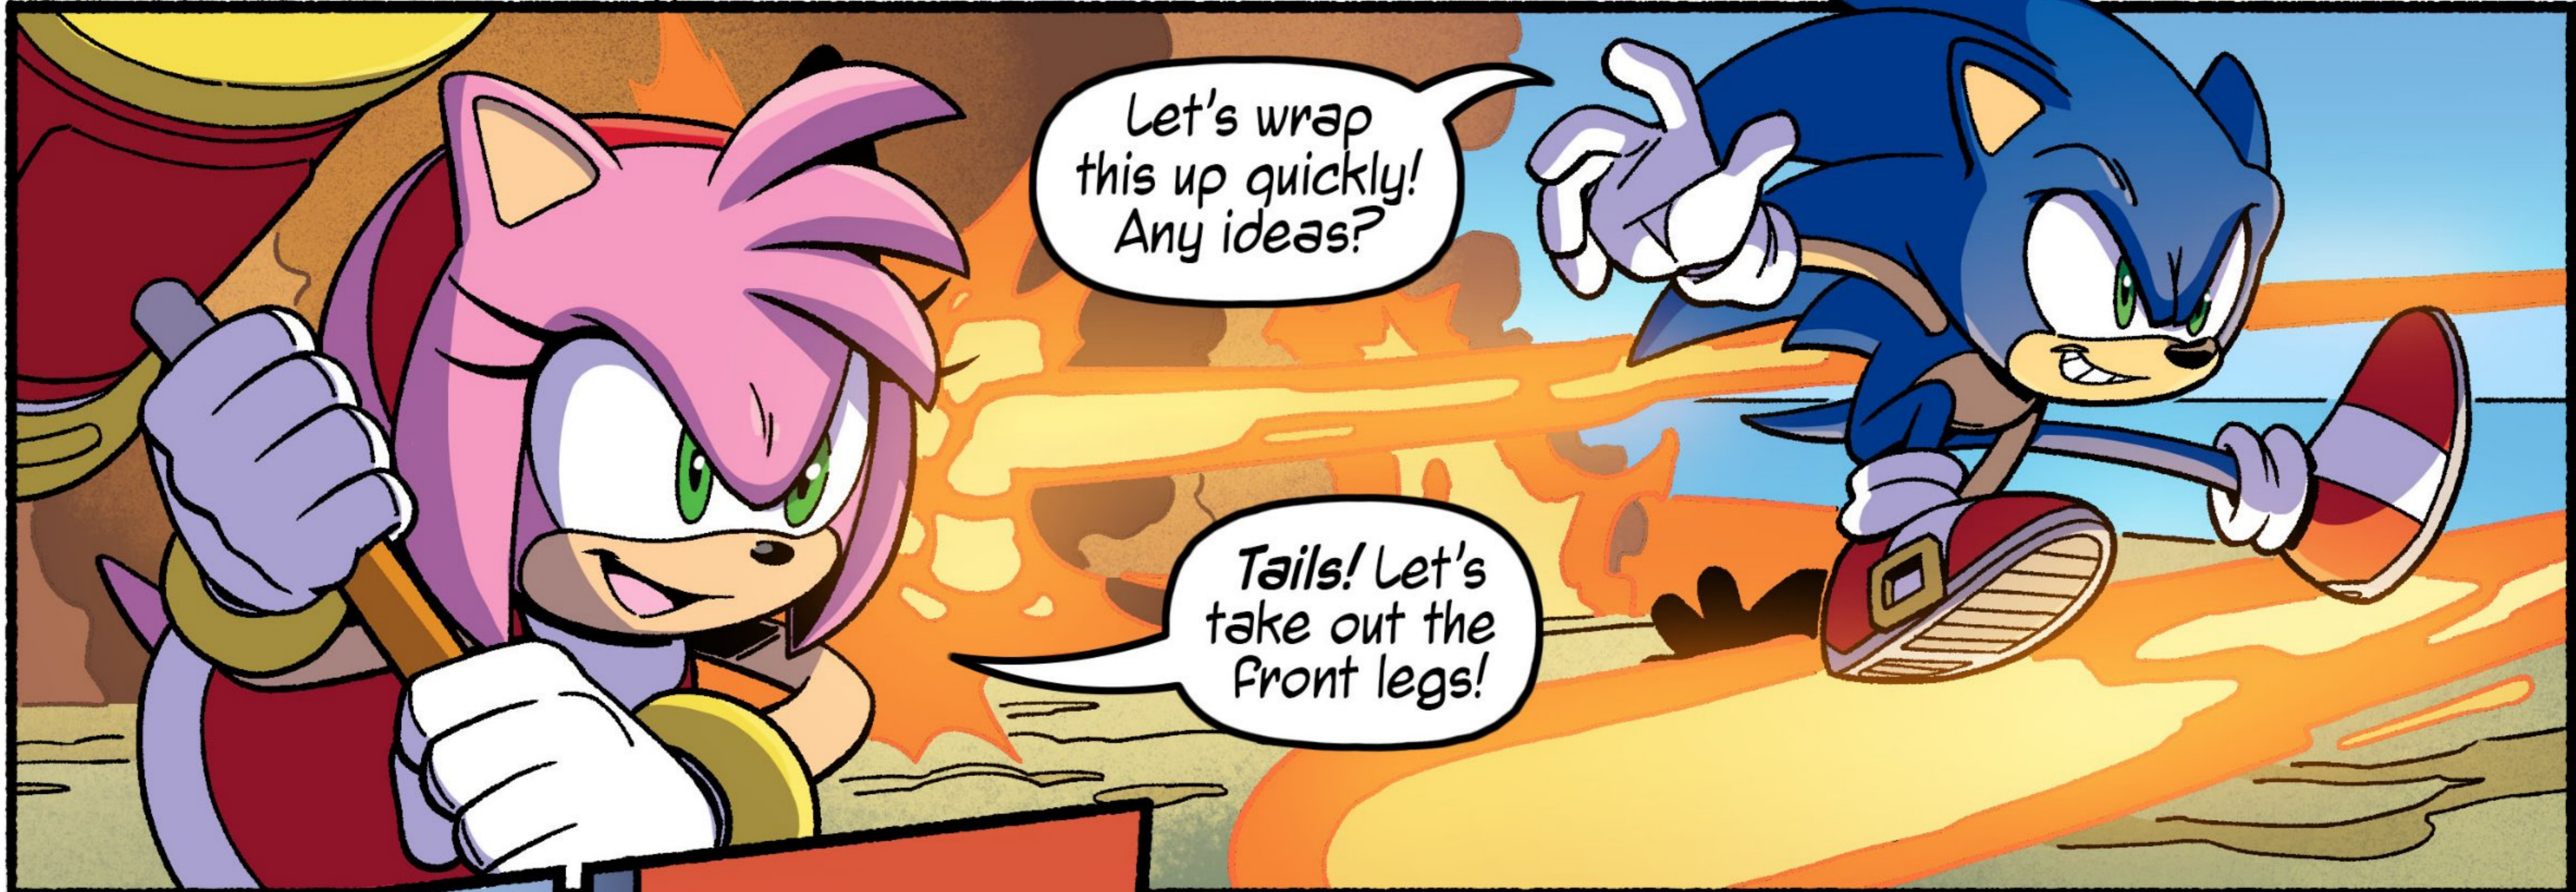

Your chances of beating me just went from slim to none, Eggman!

Get a load of this!

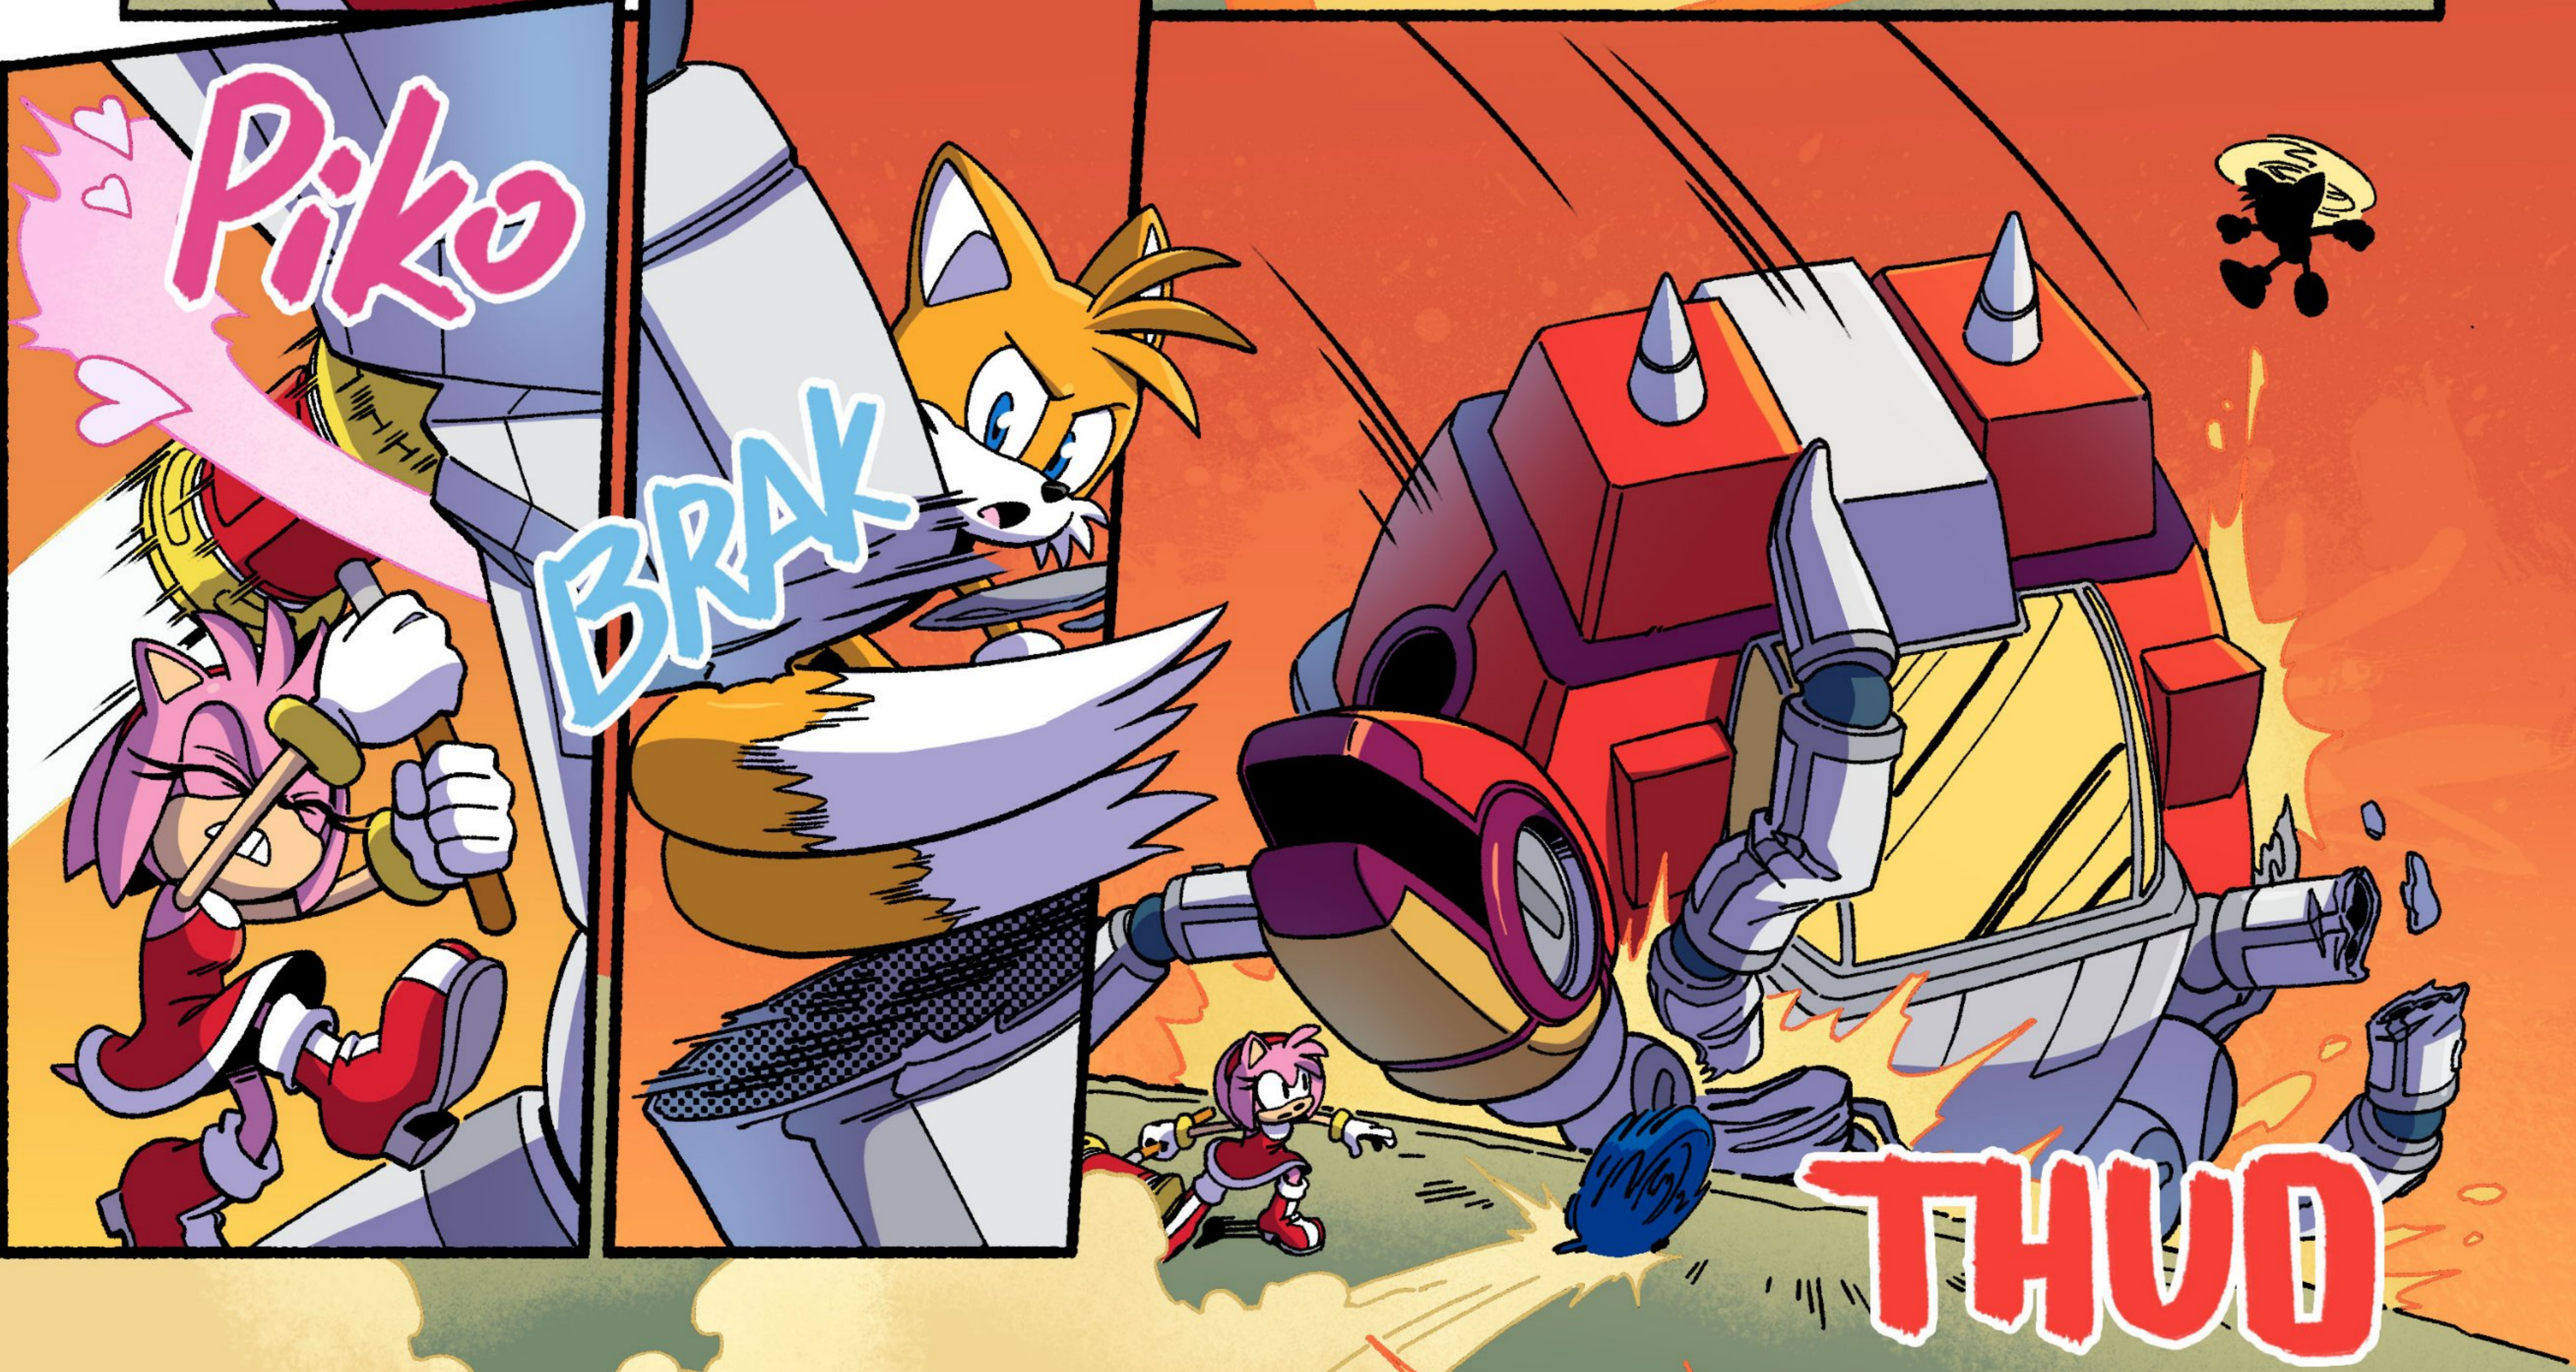

Let's wrap this up quickly! Any ideas?

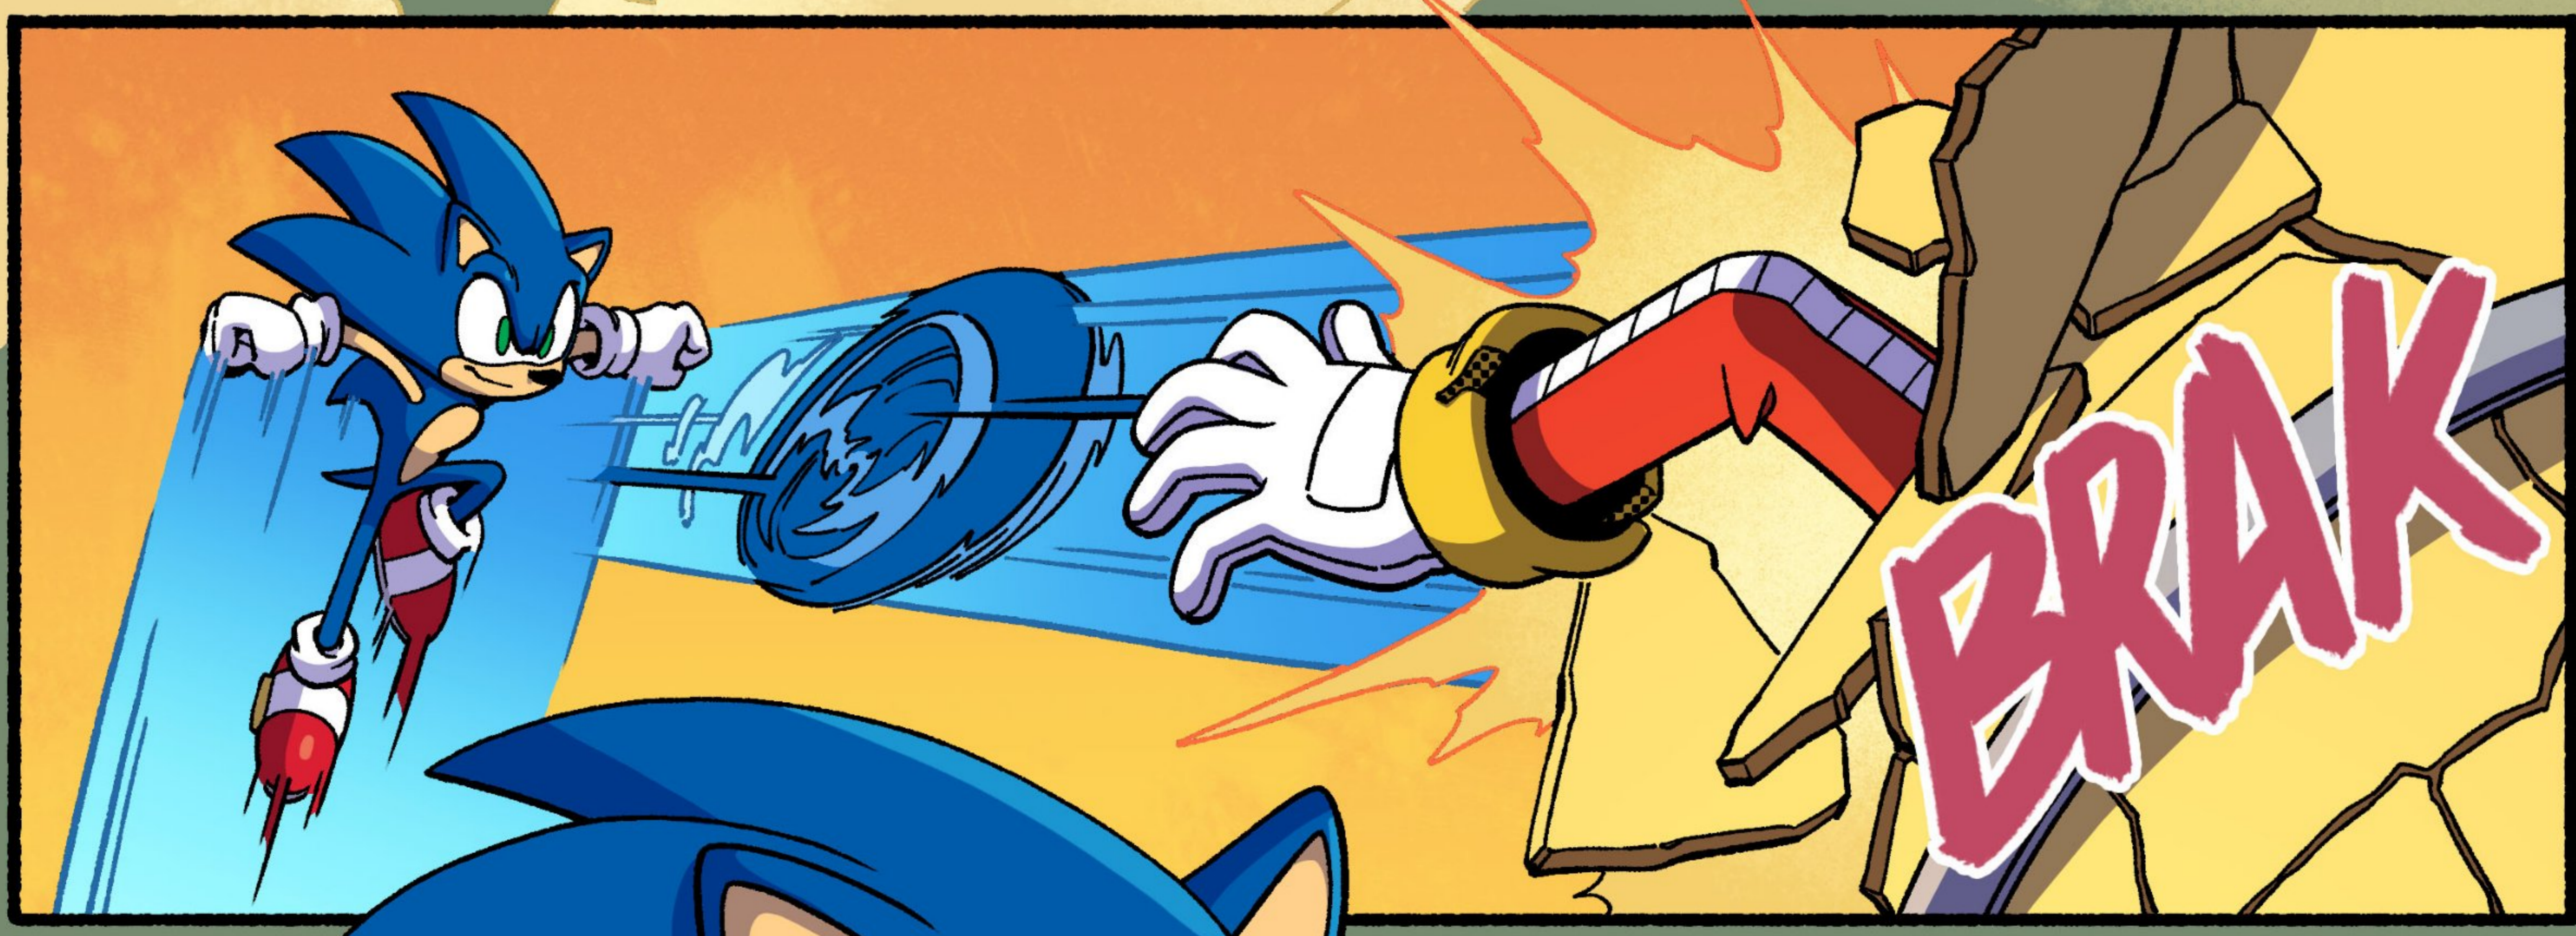

Tails! Let's take out the front legs!

THUD

BRAK

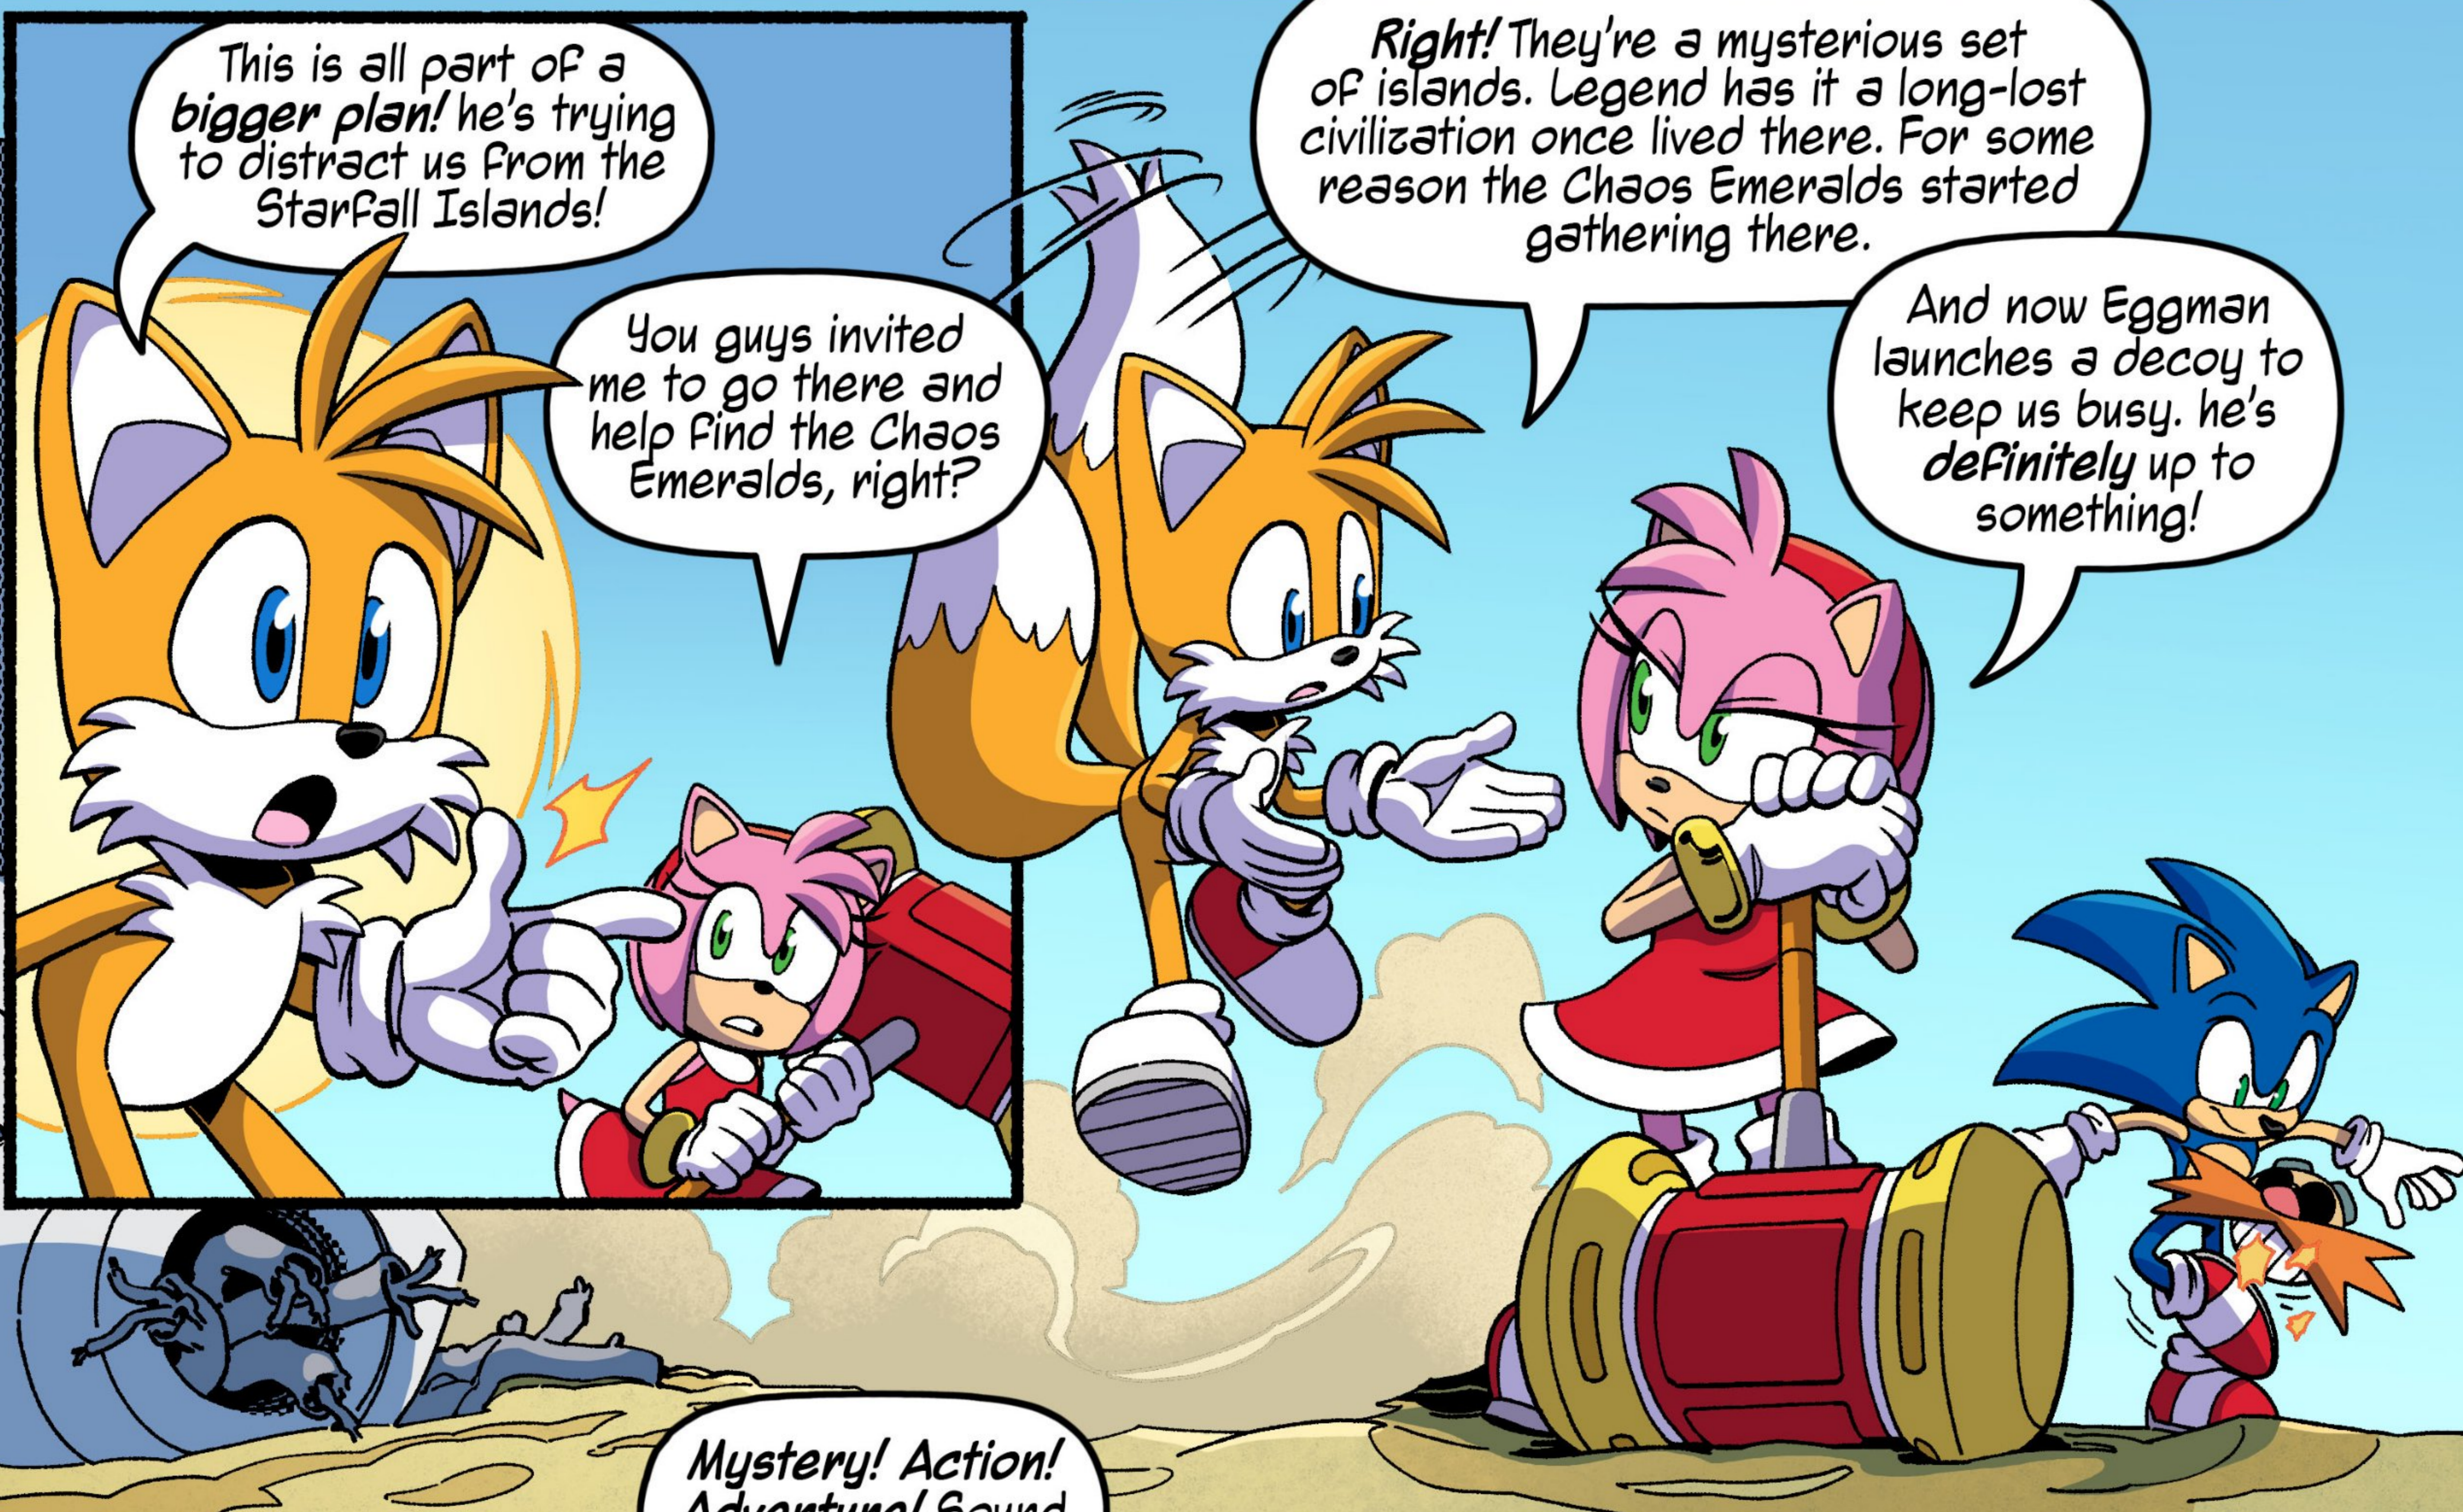

Wha-- that's not Eggman!

Ha! Ha! Ha!
See if you can
make it through
here, Sonic!

It's another
decoy piloting a
mecha. Adorable.

This is all part of a
bigger plan! he's trying
to distract us from the
Starfall Islands!

You guys invited
me to go there and
help find the Chaos
Emeralds, right?

Right! They're a mysterious set
of islands. Legend has it a long-lost
civilization once lived there. For some
reason the Chaos Emeralds started
gathering there.

And now Eggman
launches a decoy to
keep us busy. he's
definitely up to
something!

Mystery! Action!
Adventure! Sound
like fun to you?

You know it
does! Let's go!

Later-- Kronos Island
First of the Starfall Islands

Um, hello boss.
Enjoying your island
excursion?

This is a
business trip,
not a vacation!

Of course, sir,
and I hate to
interrupt, but...

Just spit it
out already!

Sonic and his
Friends just trashed
Unit 03-C04.

What?!
And you're
telling me now?!

There were...
Er... *Technical
difficulties* trying
to reach you.

Oh
really?

Analysis of data
transfer shows significant
delay between unit des-
truction and contact.

You
tattle-tale!

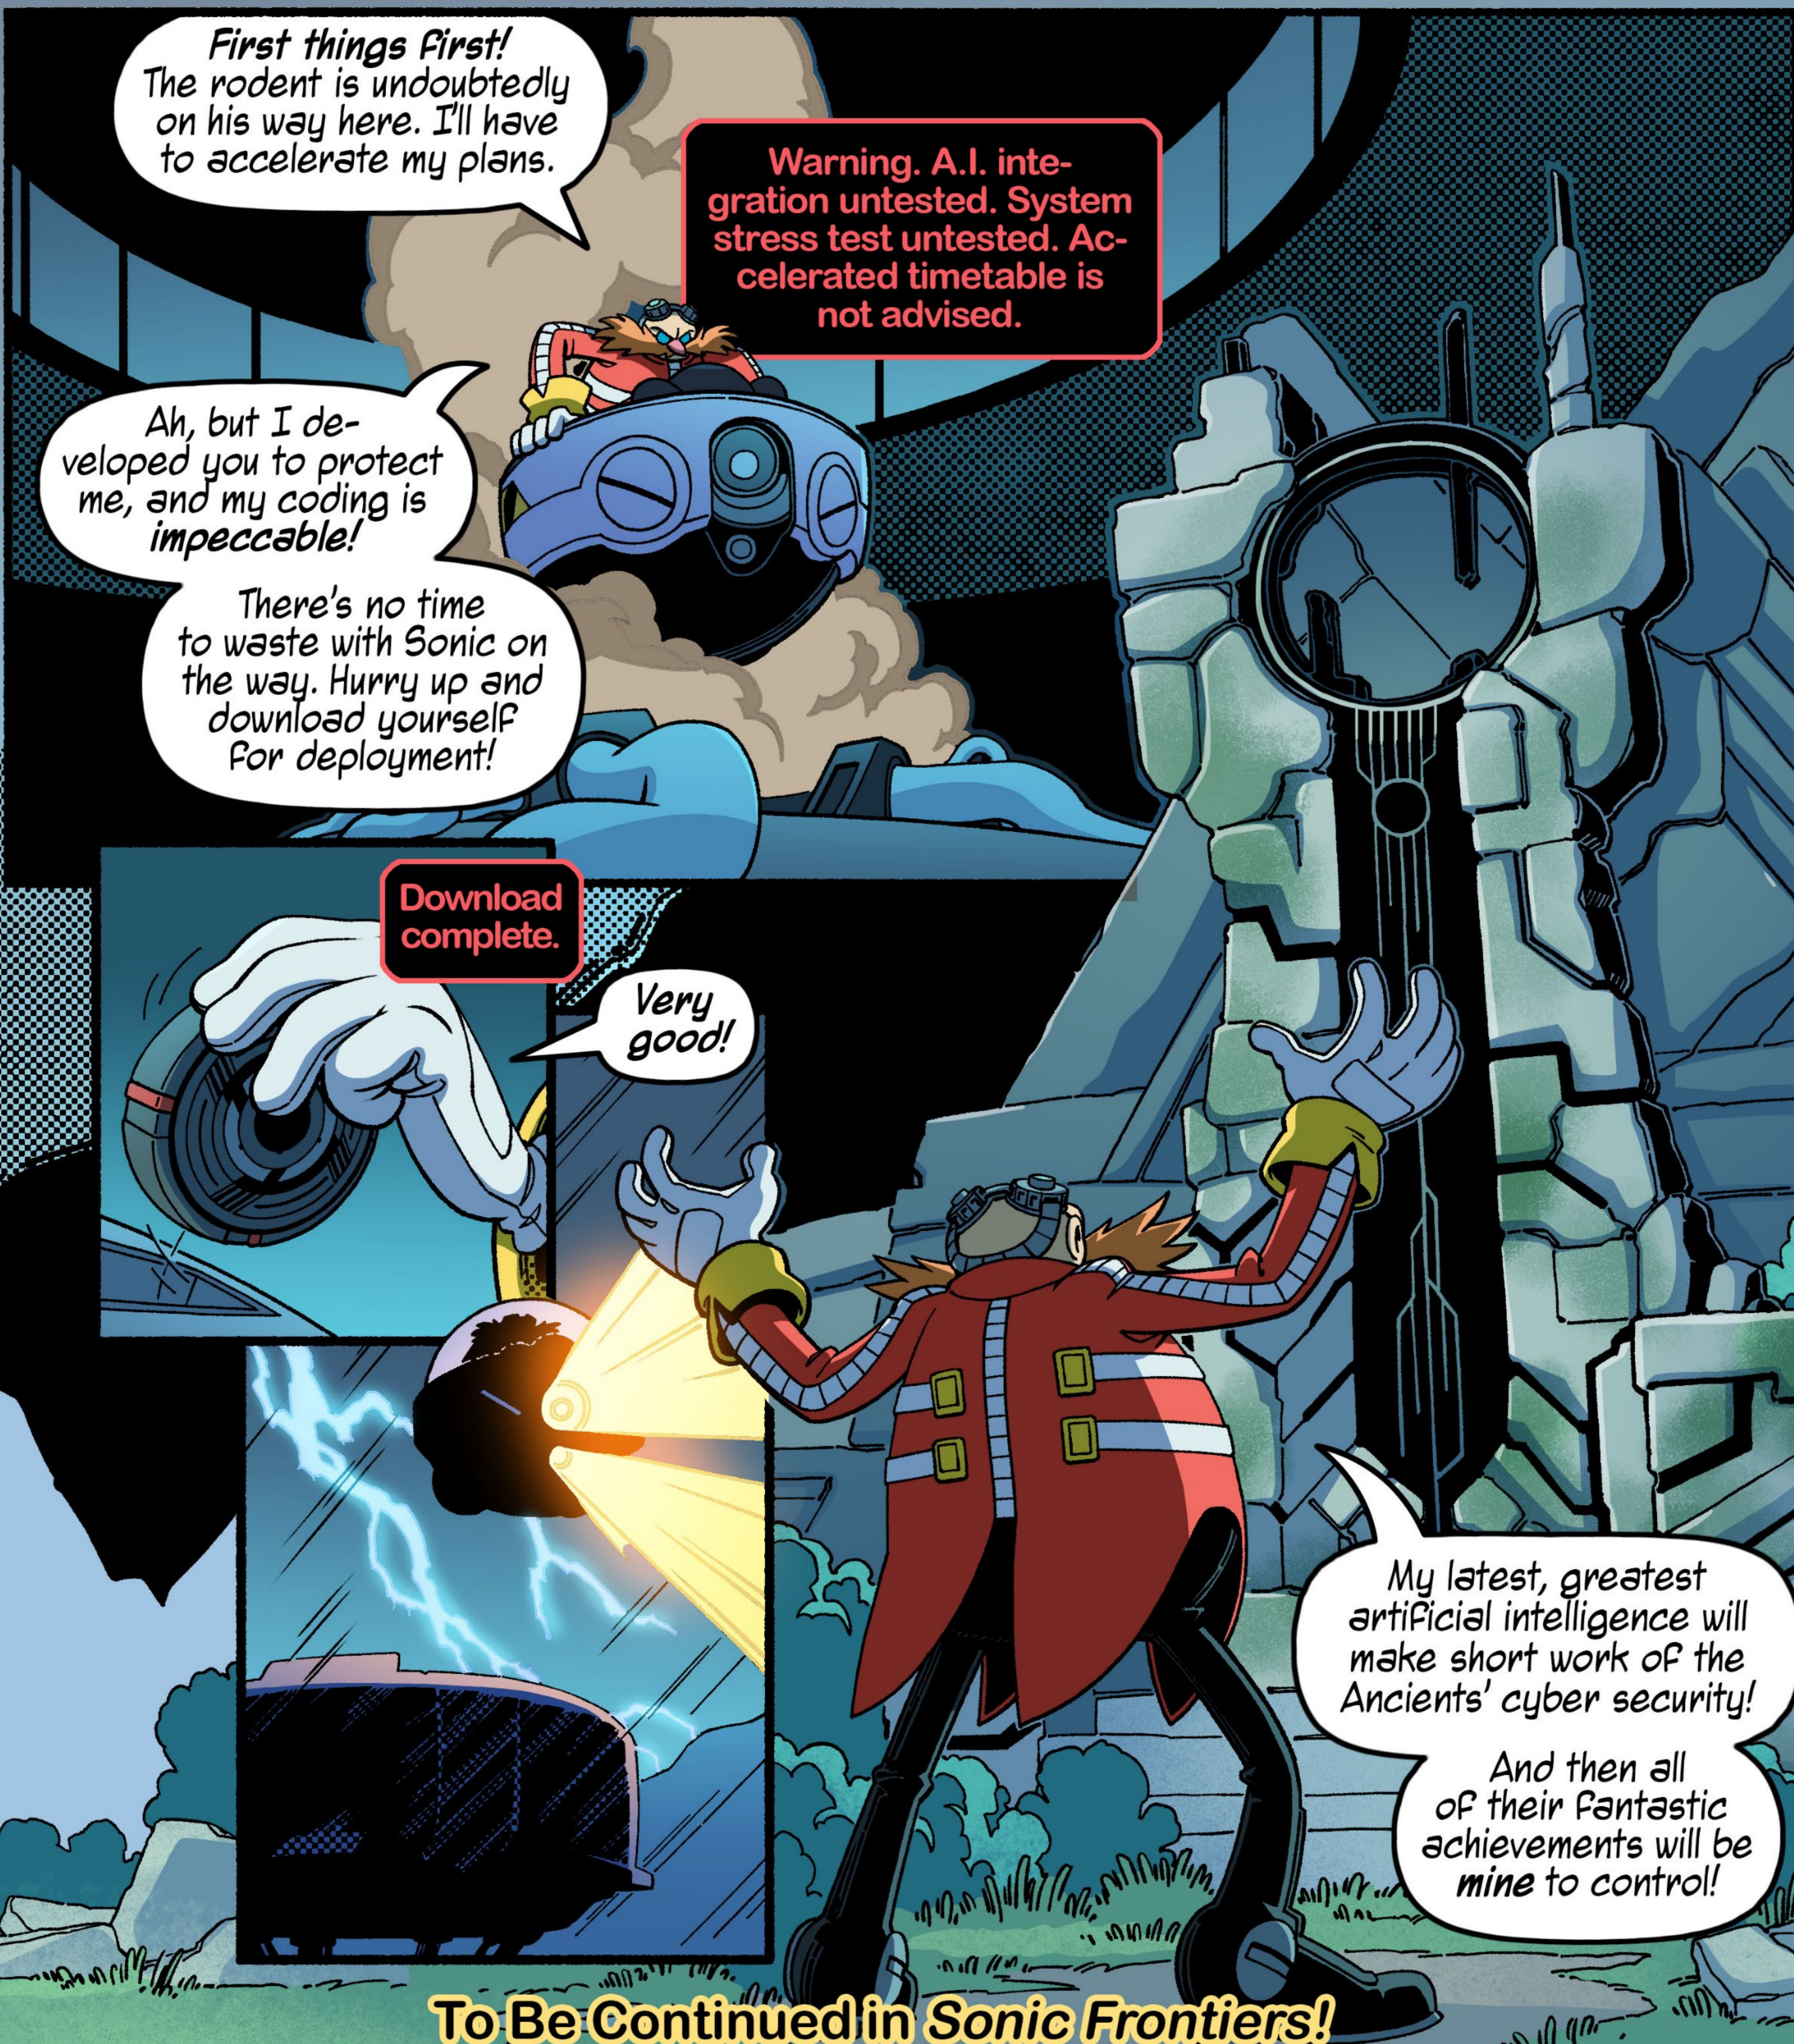

Grr... Just keep things running until I return.

I take the time to program life-like personalities into some minions, and all it does is frustrate me. Once-- *just once!*-- I'd like one of my creations to fill me with *pride* instead of regret!

The relics hidden on the Starfall Islands are *staggeringly* advanced.

Maybe once I take them for my own, I can finally craft the ultimate creation...

First things first! The rodent is undoubtedly on his way here. I'll have to accelerate my plans.

Warning. A.I. integration untested. System stress test untested. Accelerated timetable is not advised.

Ah, but I developed you to protect me, and my coding is *impeccable!*

There's no time to waste with Sonic on the way. Hurry up and download yourself for deployment!

Download complete.

Very good!

My latest, greatest artificial intelligence will make short work of the Ancients' cyber security!

And then all of their fantastic achievements will be *mine* to control!
