PAN EUROPEAN GAMES INFORMATION (PEGI) AGE RATING SYSTEM

A PEGI age rating is displayed on the packaging for this game. The PEGI age rating system protects children and teenagers from games unsuitable for their particular age group. It allows parents and those purchasing games for children to make an informed choice appropriate to the age of the intended player. PLEASE NOTE: Age rating is not a guide to gaming difficulty.

Comprising three parts, the first part of an age rating is an age icon:

The second part of the rating may consist of one or more descriptors indicating the type of content in the game. The age rating of the game reflects the intensity of this content. The descriptors are:

For further information visit www.pegi.info

Some games may also display the PEGI Online logo. This logo may be used only by online game providers who have committed to uphold certain standards which include the protection of children in online gameplay.

PARENTAL CONTROL

You can set up the PS Vita system to prevent access to games which may not be suitable for the age of a child using the PS Vita system. You should set the parental controls if you have a child who will be using the PS Vita system who is not old enough to play this or other games you have purchased for the PS Vita system. The age rating for this product appears on the packaging.

The default parental control level on the PS Vita system is 9. You will need to set the parental control level on the PS Vita system to one of 11 levels to prevent your child from accessing content which is not suitable for their age. The relationship between the age rating of a product in your region and the parental control levels on the PS Vita system is as follows:

PARENTAL CONTROL LEVEL	9	7	5	3	2
AGE RATING	18	16	12	7	3

For example, if your child is 11 years old, you should prevent access to content which is rated as suitable for 12 years and older. In this instance, set the parental control on the PS Vita system to level 3. The lower you set the control, the more restrictive the setting. You can always change the parental control setting to allow play by older users.

In rare cases, the parental control level for this product may be more restrictive (lower) than the level which would normally apply to the age rating in your country. This is due to differences in the age rating systems in the various countries in which this product is sold. You may need to reset the parental control level on your PS Vita system to enable play of this product.

For instructions on how to set the parental controls, please refer to eu.playstation.com/psvita/support/manuals

PICKUPS

Super Pickups are identified by an exclamation mark, and will give you a fixed high-power item depending on its location. Only one Pickup item can be carried in stock. A different item cannot be picked up until the stocked item has been used. However a super pickup will supersede the existing weapon.

Hot Rod

Twister

Drone

Blow Fish

Glove

Shields you from projectiles for a limited time. Gloves can even catch the weapon for your own use.

Swarm

Send a swarm of disgruntled bees after the player furthest in front to block their progress.

Boost

Exactly what it says on the tin. A quick boost of speed that's handy for catching up with opponents.

Firework

A single shot weapon that bounces off walls.

TIP! Certain weapon items can be fired at rivals behind you by holding the left stick down and pressing the use Pickup button.
